ON THE TRACK OF UNKNOWN MAMMALS: DISCOVERING NEW SPECIES IN AN AGE OF EXTINCTIONS

**A Public Presentation by
Dr. Kristofer Helgen**

Dr. Kristofer Helgen discovers new species of mammals. Dr. Helgen is curator of mammals at the Smithsonian Institution in Washington, DC. He has appeared on the Discovery Channel and on television and radio programs around the world. His research adds to our understanding of conservation, taxonomy, systematics, evolution and biogeography.
