Department:	Date Completed:

Approval Signatures (typed names will suffice)

Employee:
Immediate Manager:

Overall Job Purpose

Briefly summarize in one or two sentences the overall purpose of this job. What is it expected to accomplish?

Specific Accountabilities

Consider the major results for which this job is accountable (typically jobs can be described in 3 to 6 major accountabilities). Describe each accountability by a phrase at the top of each box and indicate the appropriate percentage of the time over the course of a year that is dedicated to this accountability.

Accountability A:	%
-------------------	---

Accountability B:	%
-------------------	---

--

Accountability C:	%
-------------------	---

--

Accountability D:	%
-------------------	---

--

Accountability E:	%
-------------------	---

--

Knowledge and Skill

- 1a) Describe the overall knowledge or skill required for your job, however acquired, e.g., skill gained through formal education, or on the job experience, or specialized skills and training etc. Consider knowledge/understanding of:
- Office routines, methods, procedures
 - Specialized skills, use of specialized equipment
 - Procedures, methods, processes, systems, programs
 - Technical/professional/scientific theory/principles etc.

1b) Describe the responsibilities/duties for which the overall knowledge and skill described in 1a) are required.

Working Relationships

2a) Describe the various working relationships required in job including:
Titles of jobs that report directly to your job
Titles/groups of jobs that report indirectly (i.e., through a subordinate supervisor) to your job
Other titles/groups that receive functional guidance/advice of a specialized nature from your job and describe the guidance/advice.

2b) Describe the typical types of interactions, either internal or external, that are required of your job. Indicate with whom the interactions occur and the purpose or nature of the interactions. Do not consider one-time or infrequent examples.

Problem Solving/Challenges

3a) Describe the types of support that are available to help you to problem solve, e.g., guidelines, procedures, policies, guidance from supervisors/peers etc.

--

3b) Describe the typical most difficult or challenging situations that your job is expected to handle and describe how they are resolved.

--

Impact of Recommendations, Decision Making and Actions Taken:

4a) Indicate the **one** statement below that best describes your job's impact on the results to the organization.

	Provides information, assistance or service in support of others – i.e., to collect, or process information or data; or for use by other jobs.
	Interprets, advises or provides other supporting services for use by others in achieving results. – i.e., providing advice and counsel, where decisions are likely to be made by virtue of that advice/counsel.
	Controls significant activities and resources which produce the results and must answer for the results – e.g., control of budgets, client service delivery objectives.

4 b) List examples of recommendations/decisions you make on a regular basis on your own without reference to your supervisor, e.g., work priorities, assign work schedules to others.

Recommendations / Decisions

4 c) List examples of recommendations/decisions about which you are required to seek consultation with, or approval from your supervisor, e.g. changes in procedures, capital expenditures, etc.

Recommendations / Decisions

Dimensions

5. If applicable, state the measures for which your job is accountable, e.g. total number of employees supervised stated as full-time equivalents; operating and/or capital budget amounts, revenue generation responsibility etc.

Quantitative Data			
Number of Staff Supervised:	Directly	Indirectly	Total
Financial Responsibilities:			
Annual revenue generation:			
Annual operating budget responsibility:			
Other Quantitative Information (Please Specify):			

Working Conditions

Please tick the appropriate box describing the conditions under which the job is performed. Take into consideration the intensity, duration, and frequency.

6. Physical Effort

	<p>A. Minimal Work activities involve alternating positions of light physical activities (sitting, standing, walking, bending, lifting light weight animate/inanimate objects, intermittent periods of keyboarding etc.), which cause little physical effort. Majority of time is spent in a comfortable position with frequent opportunity to move about at will. Activities require a variety of easy muscle movements.</p>
	<p>B. Moderate Work activities require intermediate periods of moderate physical effort, e.g., sitting in one place, standing, walking, sustained keyboarding, working in awkward or constrained physical positions or confined/restricted spaces for up to 50% of the work day, regularly climbing ladders, or regularly lifting medium weight animate/inanimate objects. Activities typically require a variety of muscle movements with frequent requirement for speed and coordination.</p>
	<p>C. Considerable Work activities require frequent, lengthy periods of heavy physical effort, e.g., sitting in one place, standing, walking, sustained keyboarding, working in awkward or constrained physical positions or confined/restricted spaces for 51% to 80% of the work day, regularly lifting/carrying large, or awkward heavy weight animate/inanimate objects. Activities typically require a high level of speed and coordination.</p>
	<p>D. Extreme Work activities involve almost continuous and lengthy durations of heavy physical activity, e.g., lifting heavy weight animate/inanimate objects, standing, walking, sustained keyboarding, working in awkward or constrained physical positions over 80% of the work day. Activities typically require a high level of speed and coordination for most of the work time.</p>

7. Physical Environment

	<p>A. Minimal physical Works in an environment with occasional exposure to mild unpleasant or disagreeable conditions, e.g., negligible conditions of dust, dirt, noxious odours, noise etc. and/or a remote possibility of risk of accident or health hazards.</p>
	<p>B. Moderate physical or moderate hazardous Works in an environment with frequent exposure to unpleasant or disagreeable conditions, e.g., minor conditions of dust, dirt, noise, noxious odours, inclement weather, grease/oil, garbage, behaviourally difficult clients and/or occasional exposure to health or accident hazards that may result in lost-time accidents or injuries that cause discomfort for a short period of time.</p>
	<p>C. Extreme physical or substantial hazardous Works in an environment with almost continuous exposure to unpleasant or disagreeable conditions, e.g., extreme conditions of dust, dirt, fumes, heat, cold, temperature extremes, exposure to violence and/or regular exposure to health or accident hazards of a serious nature which may result in partial/permanent disability, or serious injuries that extend beyond the day of occurrence, requires medical attention and involves lost time.</p>
	<p>D. Extreme hazardous Works in an environment with almost continuous exposure to health or accident hazards of an extreme nature which may result in disabilities or death.</p>

8. Sensory Attention

	<p>A. Limited Work activities involve occasional periods of low intensity concentration requiring little demand on sensory effort. Requires normal use of sensory attention/concentration, e.g., collecting routine information, filing, basic word processing of routine documents, inputting straightforward data (no formatting or creation of formulas), monitoring machines/video display terminals, attending to phone conversations and/or routing demands for information, low intensity smelling/tasting during food/beverage preparation, where there is a basic need for presentation/palatability. If sensory activities are interrupted, the job incumbent generally picks up where the task flow was interrupted with no need for backtracking. The need for detailed or precise work is low.</p>
	<p>B. Moderate Work activities involve need to concentrate on a variety of sensory inputs for intermediate durations at a time requiring close attention several times daily, e.g., advanced work processing or graphical layout, creation of spreadsheets including new formula, data entry or attending to single or simultaneous tasks where accuracy of details is important, repairing/tuning tools/equipment/instruments where the need for precision is moderate; taking/transcribing minutes of meetings, moderate intensity smelling/tasking during food/beverage preparation where there is an advanced need for presentation/palatability etc. If sensory activities are interrupted, time is required to backtrack to resume activities, involving lost time. The need for detailed or precise work is moderate.</p>
	<p>C. Considerable Work activities involve a frequent need to concentrate on a variety of sensory inputs for lengthy durations at a time requiring diligence and attention to interpret effectively, e.g., graphic design, analyzing/auditing data/information, software/hardware programming, technical troubleshooting, repairing tools/equipment/instruments that are detailed requiring an exacting need for precision; writing complex reports, intense listening, e.g., when facilitating meetings, conducting interview, crisis intervention. If sensory activities are interrupted, considerable time in backtracking is required to resume activities. The need for detailed or precise work is high.</p>
	<p>D. Extreme Work activities involve an almost continuous need for a high degree of concentration to focus simultaneously on several events or changing factors, coordinating the “messages” and reacting, or the need for detailed sensory concentration is essential to interpret fine nuances of detail, which leave no room for error, e.g., surgical procedures. Sensory activities should not be interrupted as there is no opportunity to backtrack. The need for detailed or precise work is extreme.</p>

9. Mental Stress

	<p>A. Minimal Work activities are performed in an environment with very little exposure to any factor that would produce mental stress, e.g., few deadlines, limited mild, unpleasant public or client contacts and/or little disruption of personal life because of work schedules or need to travel.</p>
	<p>B. Moderate Work activities are performed in an environment with occasional exposure to one or more mental pressures. The mental stress would not be noticeably disruptive to the work, nor would the unpleasant reaction be too strong or persistent, e.g., pressure for deadlines, quotas or need for accuracy, unpleasant public or client contacts, probable concern about unpleasant situations, repetitious work, and or some disruption of personal life because of work, work schedules or need to travel.</p>
	<p>C. Considerate Work activities are performed in an environment with frequent exposure to mental pressure conditions where the mental stress would be noticeable, e.g., deadlines that have aspects of conflicting and/or competing pressures, dealings with public or client contacts who are angry, demanding, uncooperative, or emotionally disturbed, concern about dangerous situations occurring is common and or regular disruption of personal life because of work, work schedules or need to travel.</p>
	<p>D. Extreme Work activities are performed in an environment with almost continuous exposure to mental pressure conditions. Extreme mental stress is a noticeable part of the job, e.g., conflicting demands and priorities, exposure to emotionally disturbing experiences, confrontation, concern about danger to self or others, concern about the probability of stressful situations which could have a serious outcome.</p>

Anything Else?

10. Describe any additional relevant job information that you believe has not been covered by this questionnaire.

11. Manager's Comments

THANK YOU FOR COMPLETING THIS JOB QUESTIONNAIRE
