**Research Project**

The media is a prevalent influence in North America and has a significant effect on the manner in which we view aging and old age. This assignment is designed to examine the media's portrayal of aging. For this assignment you will conduct content analysis on a media source of your choice. Your analysis will focus on aging and its presentation in the media you are investigating. You will incorporate theory, research, and a literature review in your paper. We will discuss this assignment in detail in class.

Your paper is to be 8 to 10 pages in length, double-spaced, and 12 font.

**Grades**

The midterm and your research project will be returned in class. You have two weeks, after the day midterms and the assignment are handed back in class, to come and discuss your grade.

**Participation**

Your participation mark is based on your contribution to class discussions.

**Office Hours**

There are two regularly scheduled office hours each week. Office hours are set to provide students the opportunity to stop by if they have questions, concerns, or would just like to say hello.

**Please Note: I do try to answer email in a timely fashion. I do guarantee a response during my regularly scheduled office hours. I do not discuss marks through email.**
