

MSW Project Track

Winter Graduation: 16 Month Completion

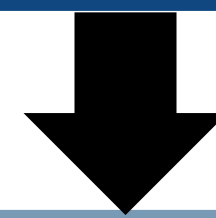

Fall Year 1

- Review practicum manual; meet with Graduate Field Coordinator to discuss practicum goals
- Begin researching potential project topics
- Gear as many assignments as possible to broad topic for project
- By end of term - Have some reading completed to topic area of interest, but may not be ready to narrow the topic.

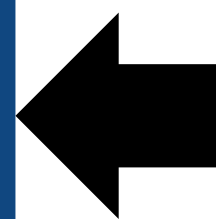

Winter Year 1

- If focus of project is not yet identified, work with supervisor early in the term to identify focus of project
- Gear as many assignments as possible to broad topic for project
- Continue conducting/gathering research on area of interest for project

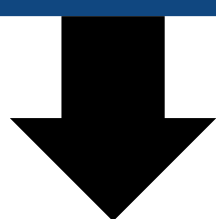

Summer Year 1

- Finish project research and analysis
- Draft sections of the project report
- Send draft sections to faculty supervisor for feedback
- Anticipate a 2-week response time from faculty supervisor when requesting a review of project report progress

Spring Year 1

- Start placement and complete in summer
- Do some work on project during placement (e.g., research & writing) and maintain reference list

Fall Year 2

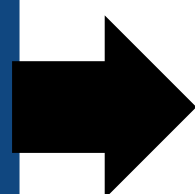

- Discussions with supervisor to identify second reader; supervisor approaches second reader
- Continue working on project, finalizing details
- Full draft is to be completed and sent to supervisor

Supervisor

By late September/early October final draft of project report should be completed

Anticipate a 3-week response time when final draft is submitted

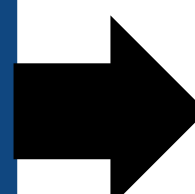

Second Reader

Second reader draft should be ready by mid October

Anticipate a 3-week response time from second reader

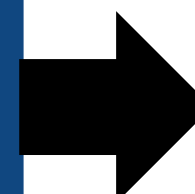

(Supervisor may request an external third reviewer)

Revisions

By early-mid December student receives second readers comments

Student makes required changes before end of December

Graduate Coordinator

Final approval is granted by the graduate coordinator

Intended Graduation Winter (February): final change of grades for all courses must be submitted by early January
