

Co-operative Education Work Term Report Guidelines – Computer Science

Length:

Approximately 10 pages

Content

Academic Related:

Demonstrate what was learned and experienced related to the computer science academic program. Include examples of work, if approved by the employer.

Career Related:

Indicate how the enhanced knowledge and skills will contribute to future career development. These may include software development skills, database development skills, knowledge of hardware, professional communication, time management skills, customer interaction, etc.

Due Date:

Work Term Reports are due at the end of each work term. Reports are to be submitted by the determined deadline as indicated in the emailed instructions. Work Term Reports must be submitted to the Student Success Centre by email to coop@lakeheadu.ca
