Title Field School in Environmental Sustainability II	Title Field School in Environmental Sustainability II
Description Students are required to complete a minimum of three weeks field program. The normal time for this course is during August, after completion of the third year. Location of the project areas may vary from year to year, but, generally regions adjacent to Orillia will be visited. The students will be exposed to a variety of field techniques in interdisciplinary (e.g. biological, geographical and geological) settings and will be required to formalize field observations in reports. Rationale	Rationale <i>There have been many queries from students interested in experiential learning/hands-on training as well as community members who are interested in taking field schools out of sheer interest. Removing the registration restriction (only for ENSU majors) and opening admission to the courses up to everyone would increase enrolment. Increasing enrolment would help the course run at less expense through cost sharing; this course has a miscellaneous fee for</i>

	<i>travel and accommodation.</i>
