Rationale	Rationale <i>Opening the course up to students as an elective would increase enrolment in the course as well as satisfy students' interests. In addition to IS majors, Business students also expressed their interest to enrol in this course as an elective. The process of getting "permission of the instructor" would make sure the background of the student is sufficient. ENSU 1033 should be retained as prerequisites to streamline the path (year level progression) for students in the ENSU major.</i>
