With moving it to second year of these same programs, thereby replacing Geography 2211 at year 2, we have replaced the requirement of Geography 3251 or 3523 at year 3 with a more general requirement that students choose one half-course in a list of third year Geography courses and one Natural Resources Management course, with the recommendation that students in Geography programs who are also pursuing the Certificate Program in Geomatics elect to take either Geography 3523 or Natural Resources Management 2270 from this listing.
