-----	---------------------	---

### Course Details

Public Health 5330 - Critical Appraisal <b>Start Term:</b> Fall 2012 <b>End Term:</b> Summer 2014
---

<b><u>Course Details</u></b>
<b>Code</b> Public Health 5330
<b>Title</b> Critical Appraisal
<b>Description</b> Additional opportunities will be provided to students in developing their critical appraisal skills of the literature. Using a number of published papers (primarily with a focus on Public Health) the students will examine the methodological and statistical approaches used and critique the papers. The main objective will be to develop critical skills and also to further sharpen the students' own methodological expertise. The objective is to appraise the literature in a constructive manner to advance science. The students will be expected to read all manuscripts and to participate in discussion.

-----	---------------------	--

### Course Details

Public Health 5335 - Social and Legal History of Public Health <b>Start Term:</b> Fall 2012 <b>End Term:</b> Summer 2014
--

<b><u>Course Details</u></b>
<b>Code</b> Public Health 5335
<b>Title</b> Social and Legal History of Public Health
<b>Description</b> A critical overview of the social and legal history of public health initiatives in Canada. Areas to be investigated include: safe water and food regulation; treatment of venereal disease; vaccination; maternal and child welfare; the regulation of alcohol, tobacco and illegal drugs; injury prevention; and eugenics and genetic regulation. Throughout the course, race, ethnicity, gender and class will be prime considerations in understanding the differential impact of public health policies on various populations. Particular attention will be focused on aboriginal health and the problems of the public health model in this context.
