Rationale ENSU program currently does not have an option of a Special Topics course. The faculty expertise in the department expanded compared to what we had at the time of designing the program. There is interest from several colleagues, whose expertise match with the mandates of this degree, for offering courses for this program. Students will certainly benefit from these areas of expertise that are not covered by any of the existing courses. In due course, if student interest and enrolment demand, these courses may be calendared as regular courses.
