Notes

Printed: 02/01/2014

Date	User	Note
01/03/2014	Christina Maenpaa	These changes will encourage retention and correspond with the other 4 year non-direct entry programs available in the other SES Academic Units.

1.	New Degree	Bachelor of Environmental Science (Biology Major) 4 Yr - Four Year Non-Direct Entry Program
----	------------	---------------------------------------------------------------------------------------------

Justification

The rationale for this change is to be able to provide students a 4-year bachelor degree in situations when they have been unable to achieve the 70% average required of the honours degree program. Without these environmental studies and science options, currently students are transferred to other 4-year non-direct entry BA or BSc degree programs. It would be preferable to provide students with the option of an environmental studies or environmental science degree option.

Degree Details

<p>Bachelor of Environmental Science (Biology Major) 4 Yr - Four Year Non-Direct Entry Program Start Term: F-W 2014-15 End Term: No Specified End Date</p>

<u>Required Information</u>
<p>Institution Unit Faculty of Science and Environmental Studies</p>
<p>Degree Type BSC4</p>
<p>Major</p>
<p>Minor</p>
<p>Specialization</p>
<p>Rationale To provide students with a 4-year bachelor degree in situations when they have been unable to achieve the 70% average required of the honours degree program. Without these environmental studies and environmental sciences, students will be transferred to other non-direct entry BA or BSc degree programs. It would be preferable to provide students with an option with an environmental focus.</p>
<p>Requirements Four year Non-Direct Entry Program The program requirements are the same as for the HBESc (Biology Major) program. However, in order to remain in the program, students must maintain at least an overall 60% average in the major.</p>

<u>Budgetary Considerations</u>

Student Enrolment No. The program is only available for students already enrolled.
Student Enrolment Other Units No. This change only relates to SES.
Additional Resources No. The courses will be taught regardless of this change.
Teaching Loads No. The courses are arranged regardless of the change.
TeachingSupport Services No. There will be no change.
Outside Support No. There will be no change.

2.	New Degree	BES(Earth Science) 4Yr - Four Year Non-Direct Entry (Earth Sciences)
----	------------	----------------------------------------------------------------------

Justification

The rationale for this change is to be able to provide students a 4-year bachelor degree in situations when they have been unable to achieve the 70% average required of the honours degree program. Without these environmental studies and science options, currently students are transferred to other 4-year non-direct entry BA or BSc degree programs. It would be preferable to provide students with the option of an environmental studies or environmental science degree option.

Degree Details

BES(Earth Science) 4Yr - Four Year Non-Direct Entry (Earth Sciences)

Start Term: F-W 2014-15

End Term: No Specified End Date

<u>Required Information</u>
Institution Unit Faculty of Science and Environmental Studies
Degree Type BSC4
Major
Minor
Specialization
Rationale The rationale for this change is to be able to provide students a 4-year bachelor degree in situations when they have been unable to achieve the 70% average required of the honours degree program. Without these environmental studies and science options, currently students are transferred to other 4-year non-direct entry BA or BSc degree programs. It would be preferable to provide students with the option of an environmental studies or environmental science degree option.
Requirements Four Year Non-Direct Entry Program The program requirements for the first three years are the same as for the HBESc (Earth Science) program, except that in order to remain in the program, students must maintain at least an overall 60% average in the major. Fourth Year: (a) Environmental Studies 4810

(b) Geology 3110, 3130, 3311, 4011, 4137,

(c) One FCE from*: Engineering 2139, 2433, 3738; Natural Resources Management 2110, 2350; Geography 2211, 2331, 2351, 3251, 3311, 3313, 3315, 3317, 3331, 4211, 4231, 4333; Geology 4011

(d) One FCE elective *Permissions or prerequisites may be required

Budgetary Considerations

Student Enrolment

No budgetary implications as all the required courses are currently offered.

Student Enrolment Other Units

No. The change should encourage retention.

Additional Resources

No additional resources needed as the courses are currently offered.

Teaching Loads

No change to teaching loads.

TeachingSupport Services

No change to support services. All support is already in place.

Outside Support

No outside support required.

3.	New Degree	Bachelor of Environmental Science (Geography Major) 4 year - Four Year Non-Direct Entry program
----	------------	-------------------------------------------------------------------------------------------------

Justification

The rationale for this change is to be able to provide students a 4-year bachelor degree in situations when they have been unable to achieve the 70% average required of the honours degree program. Without these environmental studies and science options, currently students are transferred to other 4-year non-direct entry BA or BSc degree programs. It would be preferable to provide students with the option of an environmental studies or environmental science degree option.
