Psychology 6531 Community and Rural Psychology
Credit weight: 0.5
This course will examine issues relevant to clinical practice in northern and underserved areas. General principles of community psychology will be related to northern environments. The roles of government and community organizations in rural mental health will be studied, with special attention to the reports of various ministries and task forces. The research literature on recruitment and retention will be reviewed. Professional and ethical issues arising from practice in northern and underserved regions will be covered.

Psychology 6531 Community and Rural Psychology
Credit weight: 0.5
This course will examine issues relevant to clinical practice in community, rural, and northern areas. The individual, social, cultural, organizational, and community influences on psychological and community well-being will be examined. The challenges and rewards of practice in rural and northern areas will be discussed, along with the professional and ethical issues that arise.
