

Dear Friends and Members of the Lakehead University Community,

The Presidential Search Committee (PSC) has completed the formal consultation process and would like to thank all participants for their active engagement and extensive input. The feedback received through in-person, written, and online survey submissions were invaluable in the development of the approved Presidential Profile. The online survey remains available.

The job posting for the President and Vice-Chancellor including a position profile was posted in mid-November and will continue to be posted until the position is filled. It is anticipated that interviews with potential candidates will begin this spring.

We will continue to provide updates throughout the process.

Yours truly,

David Tamblyn  
Chair, Board of Governors  
Chair, Search Committee
