Search For Course - Copy Course - Create New Version of Course - Discontinue Course	Course Description:	Building on the concepts from introductory financial accounting, students will be exposed to the financial statement elements in greater depth. Emphasis will be placed on revenue recognition, current assets, long-term investments, capital assets and intangibles. Emerging and global accounting issues will also be covered.
	Rationale for this proposal:	This elective course is considered to be a course that is essential to understanding advanced topics in this discipline. Students with an interest in registering in this advanced course will have satisfied course prerequisites that are typically necessary in obtaining credit within professional accreditation programs.
