Zone 2: Required Information – Detailed

Proposed Version

Course Description: **This course will introduce students to the theory, scope, and practice of training and development in organizations. It will examine training and development as a strategic HR function deployed to improve individual, group and organizational performance. Students will be exposed to the main ideas and the extensive range of activities under the umbrella of training and development including needs analysis, program, design, delivery, training methods, evaluation, and costing of training programs.**

Rationale for this proposal: **This elective course is considered to be a course that is essential to understanding advanced topics in this discipline. Students with an interest in registering in this advanced course will have satisfied course prerequisites that are typically necessary in obtaining credit within professional accreditation programs.**
