Zone 2: Required Information – Detailed

Proposed Version

Course Description: **A seminar exploring archival theory and practice, including an overview of skills needed to work in archives and contemporary issues in archival management. Focuses on the functions of the archives, such as acquisition, appraisal, arrangement and description, preservation, reference, outreach, and technology in archives. This course provides students with a foundation in the theory, methodology, and practice of archival studies, as well as the sense of their professional and social responsibilities and the knowledge of the ethical and legal dimensions of their work. Students will participate in hands-on work in archives and special collections.**

Rationale for this proposal: **The proposed course is in keeping with the objectives of both the department and the university's Academic Plan for more courses emphasizing applied learning and community service based learning. Extremely popular in the programs they are offered, and also provides students with specific learning opportunities in fields many of our graduates seek employment or graduate work in following graduation.**
