Section 1
Description of the Proposed Calendar Change:
4273 Course Title and Description Change
Rationale of the Proposed Calendar Change(s):
(Corresponding to Section 2 where required)

Rationale: Management Information Systems is a very dynamic discipline that changes continuously. For example, every several years most computer technologies such as hardware, software and networks undergo through major upgrades. This requires continuous adjustments of the discipline course curriculum. The objective of this calendar change is to reflect the latest trends in the field to deliver the knowledge that course graduates will be able to immediately apply in the workplace. As such, the recent trend is to move towards strategy-oriented electronic commerce solutions, which is reflected in the new course content.

Section 2	
Existing Calendar Entries: (Page reference based on hard copy or URL based on electronic version of calendar)	Proposed Calendar Entries/Addition/ Deletion -If only addition, specify page number and placement in university calendar -If only deletion, write Deleted

Business 4273 Electronic Commerce Prerequisite: Business 2033 Provides a comprehensive introduction to electronic commerce and emerging models of e-business. Current underlying web technologies and their implications for a wide range of database business practices are examined in detail. Course participants are introduced to more widely used programming techniques in conjunction with current markup and scripting languages and are required to demonstrate their mastery of these techniques by designing fully functional, interactive websites.	Business 4273 - pg 61 Electronic Business Strategies Prerequisite: 2033 Proposed Course Description: The purpose of the course is to provide students with a general overview of Internet-based technologies, and the usage of these technologies by organizations from a strategic perspective. Specifically, the course emphasizes the organizational fit between technologies and strategies, business models, current trends, legal aspects, and social issues. Students will also learn how to successfully launch and manage electronic business initiatives in both public and private organizations.
