Section 1

Description of the Proposed Calendar Change:

CHEM 1210 is designed for health studies students (kinesiology and nursing) and we would like to remove the ability for BSc students in Chem, Biol, Bioinformatics, and APBI from obtaining credit in this course. They receive the same information in another course

Rationale of the Proposed Calendar Change(s):
(Corresponding to Section 2 where required)

1

Chemistry, Biology, Bioinformatics, and Applied Biomolecular Science majors have to take CHEM 2211, an organic chemistry course with a lab, that is designed for their programs. CHEM 1210 is a survey course in organic chemistry for health science students (e.g., kinesiology, nursing). There is considerable overlap between the two courses, so a science student would be receiving credit for the same material twice.
