

Chair of Undergraduate Education, Orillia Campus

There was significant discussion at the meeting of SAC on April 16th, respecting the purview of SAC and Senate. Following this discussion, it was agreed that the Orillia Campus Dean and the Dean of the Faculty of Education would continue to work out the governance issues respecting the Chair appointment in Orillia. This is not to be seen as precedent setting.

The committee moved unanimously to endorse its original motion, recommending that Senate approve the establishment of a Chair of Undergraduate Education at the Orillia Campus.

It was further moved that SAC asks Deans' Council to review and clarify further principles respecting governance between the two campuses.
