Section 1

Description of the Proposed Calendar Change:
Geog 4771 Prerequisite and course description update

Rationale of the Proposed Calendar Change(s):
(Corresponding to Section 2 where required)

1

Students will be better prepared for this course by the new prerequisite which is also taught by Dr Randall. The new prerequisite actually makes this course more accessible to students outside the Geography programs as the older prerequisite (Geography 2251) was limited to Honours Geography programs and served to limit enrolment in upper year Geography courses during the period of the "double cohort" at the University. The Geography 3731 course regularly has enrolment drawing from Engineering and Outdoor Recreation Parks & Tourism students in addition to Geography students.

2

Course description content is updated to better reflect the current course curriculum.
