Section 1

Description of the Proposed Calendar Change:

As generalists, Primary/Junior and Junior/Intermediate teacher candidates must be prepared to teach all subjects in the K-10 curriculum, but many of our potential elementary teachers lack the necessary mathematics and general science background to teach these subjects competently because their academic backgrounds are often in Humanities and Social Sciences. To support our Concurrent P/J and J/I candidates in their generalist C & I courses in the Professional Year, we are requiring that they take "Mathematics for Teachers" and General Science 1000 (both closely based on the K-8 curriculum in Ontario schools), unless they are in programs which require sciences. Because university-level mathematics courses do not review the essential concepts of elementary mathematics, we are requiring even Mathematics Majors and Minors to take at least 0.5 FCE "Mathematics for Teachers" before the Professional Year. These new provisions are not obligatory for I/S candidates since they are expected to be Gr. 11/12 specialists; however, since many senior secondary teachers have junior division teaching responsibilities, especially on practicum, we highly recommend that even these candidates take the J/I "Mathematics for Teachers."

Rationale of the Proposed Calendar Change(s):

(Corresponding to Section 2 where required)
