

MEMORANDUM

Date: January 6, 2011

To: Dr. Moira McPherson
Acting Vice President (Academic) & Provost

From: Dr. Andrew P. Dean
Dean, Faculty of Science & Environmental Studies

Subject: Adjunct Professor in the Department of Chemistry

The Department of Chemistry recommends the renewal appointment of Dr. Dongfang Yang as an adjunct professor.

As an adjunct professor with the Department of Chemistry Dr. Yang will supervise or co-supervise graduate or undergraduate students, contribute to other scholarly pursuits of the department, and facilitate the pursuit of independent research. The Faculty of Science & Environmental Studies Executive on December 9, 2010 unanimously passed the motion that: "Dr. Yang's adjunct status with the Department of Chemistry be renewed." Dr. Sylvain Pelletier director of Advanced Forming and Coatings from the Industrial Materials Institute-National Research Council on January 5, 2011 provided a statement of support for the renewal of his adjunct status.

I confirm the request and support the decision of the Department of Chemistry to have Dr. Yang's adjunct professor status renewed for the four year term of January 2011 to June 2015.

Sincerely,

Dr. Andrew P. Dean
Dean, Science & Environmental Studies
