Welcome to Lakehead University!

Lakehead University is a relatively small but comprehensive institution, but when it comes to research and innovation, we certainly think big!

For new faculty eager to establish their research careers, the Office of Research Services (ORS) and Innovation, Partnerships and Economic Development (IPED) are here to provide essential support to help you realize your research goals.

The ORS takes great pride in learning about each faculty member's research interests and will help you develop your grant writing expertise to better compete for valuable research funding. We work closely with you to ensure you make the necessary connections to establish your research as a fundamental part of your academic career. Issues such as open access, research data management, knowledge mobilization plans, research security, equity, diversity and inclusion plans, research ethics approval, and research policies can be complicated. It is our responsibility to help you navigate these areas and, throughout the year, we offer many professional development opportunities and information sessions. If you are looking for industry partners, need assistance with intellectual property management, or are exploring business startup opportunities, IPED is here to help. New faculty often wonder how to best secure funding for student support, travel, or equipment. We can also help you identify pathways to these opportunities.

In 2025, Lakehead University was ranked as one of Canada's top two research universities in our peer category by Research INFO\$OURCE, Canada's leading research ranking agency. We were also again recognized as #1 in not-for-profit research income. Lakehead University is a research powerhouse in the field of artificial intelligence, leading the country in AI research and publications in our category. These rankings demonstrate our strong commitment to being a research-intensive university. While we're proud of our rankings, our greatest satisfaction comes from helping new faculty launch their research programs, mobilize their research with an entrepreneurial spirit, and feel part of our vibrant research culture. I encourage you to read the information contained within this *Information Guide*, including our staff contact information, and to visit the [Research and Innovation Website](#). I also invite you to visit our offices to find out more about how we can help you. You can access the [Vice-President Research and Innovation Organizational Chart](#) for a complete overview of our portfolio.

I joined Lakehead University last year, and it has been a true privilege to be part of a university with such a strong reputation for research excellence, especially one that is deeply committed to sustainability, community engagement, and societal progress. Research and innovation are essential to Lakehead University, and we're here to help you launch a successful and rewarding career.

Langis Roy, Ph.D., P.Eng.

Vice-President, Research and Innovation

Phone: 807-343-8010 ext. 8201

Location: UC 2003 / Email: vpresearch@lakeheadu.ca

Who to Call for...

Office of the Vice-President, Research and Innovation

Contact: Dr. Langis Roy, Vice-President, Research and Innovation
UC 2003A | 807-343-8010 ext. 8201
Email: vpresearch@lakeheadu.ca

Contact: Bethanie Foster, Executive Assistant to the Vice-President,
Research and Innovation
UC 2003 | 807-343-8010 ext. 8201
E-mail: ea.vpri@lakeheadu.ca

- Meetings with the Vice-President, Research and Innovation.
- VPRI Strategic Research Funds.

Senate Research Committee - Internal Research Funding

Contact: Bethanie Foster, Secretary, Senate Research Committee
UC 2003 | 807-343-8010 ext. 8201
E-mail: ea.vpri@lakeheadu.ca

- For general information on internal research funding from the Senate Research Committee, Regional Research Fund, and VPRI Strategic Fund.
- For general assistance in interpreting program guidelines or completing application forms for internal research grant programs.

Contact: Melissa Burton, Coordinator of Communications and Special Projects
FB 2004 B | 807-343-8010 ext. 8709
E-mail: communications.research@lakeheadu.ca

- For general information about Lakehead University's Research Plan.
- For strategic guidance and assistance with telling your research story and developing communications tools to profile your research.
- To profile your research on Research & Innovation's social media accounts.

Office of the Associate Vice-President Research and Graduate Studies

Establishing or Connecting with a Lakehead Research Centre or Institute

Contact: Currently Vacant
FB 2013 D | 807-343-8010 ext. 8827

- For assistance in establishing new interdisciplinary research centres.

- Information on existing research centres and how to participate.
- Review and administration of research centres/institutes.

Nominations for Research Prizes

Contact: Currently Vacant (please contact Anne Klymenko, Director, Research Services)
807-343-8010 ext. 8223
E-mail: anne.klymenko@lakeheadu.ca

- Information on university procedures for preparing university endorsed nominations for research prizes (i.e., Royal Society of Canada, Killam Awards, Polanyi Prizes, Herzberg Canada Gold Medal for Science and Engineering, Gairdner Foundation, etc.).
- To obtain award nominations endorsed by the University President.

Administrative Assistant to the Associate Vice-President, Research and Graduate Studies

Contact: Currently Vacant, Administrative Assistant
FB 2013 | 807-343-8010 ext. 8863

- General inquiries regarding research centres.
- Meetings with the Associate Vice-President Research and Graduate Studies.

Office of Research Services

Contact: Anne Klymenko, Director
FB 2013 C | 807-343-8010 ext. 8223
Email: anne.klymenko@lakeheadu.ca

- Overall management of research support services provided by the Office of Research Services.
- Guidance in interpreting university research policies and procedures.
- Information regarding the application of the university's indirect costs policy.
- Advice on preparing large-scale collaborative research proposals.
- Information regarding institutional research programs (e.g. Canada Foundation for Innovation (CFI), Canada Research Chairs (CRC), Industry Research Chairs, Lakehead University Research Chairs, etc.).
- Support for equity, diversity and inclusion initiatives within the CRC program and research enterprise.
- Advice or consultation regarding the university's research integrity policy and procedures.

General Research Inquiries and Romeo Research Portal Database

Contact: Darren Lampson, Research Business Analyst & Assistant to the Director
FB 2013 | 807-343-8010 ext. 8934
Email: research@lakeheadu.ca

- For general inquiries regarding research services.
- To schedule a meeting with the Director, Research Services.
- To obtain information on accessing the Romeo Research Portal.
- To obtain funding reports for research.
- For support when using the Romeo Research Portal to apply for SRC funding, human ethics, animal care, or biosafety applications; renewals or amendments.

Research Event Planning

Contact: Currently Vacant (please contact Bethanie Kramer)
Research and Innovation Events Coordinator
FB 2013 | 807-343-8010 ext. 8201

- Research and Innovation Week event planning.
- Research and innovation workshop series registration.

External Funding Opportunities and Institutional Programs

Contact: Andrew Hacquoil, Research Facilitator (Institutional Programs)
FB 2013 B | 807-343-8010 ext. 8092
Email: ahacquo1@lakeheadu.ca

- For information on the various funding opportunities available to support research.
- To sign-up for the weekly Research and Innovation Funding Opportunities Bulletin.
- For assistance with major institutional funding submissions such as the Canada Foundation for Innovation, Early Researcher Award,, etc.
- For assistance with preparing media releases related to research.

Appointment of Postdoctoral Fellows and Visiting Professors / Research Students

Contact: Andrew Hacquoil, Research Facilitator (Institutional Programs)
FB 2013 B | 807-343-8010 ext. 8092
Email: ahacquo1@lakeheadu.ca

- To obtain information on the appointment process for postdoctoral fellows, including official letters of appointment signed by the VPRI.
- To arrange for letters of invitation to visiting professors /research students (visiting undergraduate and graduate research students).

Proposal Development and Research Strategies in the Social Sciences and Humanities

Contact: Dr. Nicole Westlund Stewart, Research and Knowledge Mobilization Facilitator
 FB 2013 H | 807-343-8010 ext. 8862
 E-mail: sshrc.research@lakeheadu.ca

- Pre-award assistance with proposal strategies and grant writing in the social sciences and humanities.
- Information on SSHRC, foundations, and other granting programs supporting SSHRC-related research (e.g., NFRF).
- Knowledge mobilization strategies and partnership development with the not-for-profit sector, health sector, public sector and with Indigenous groups.
- Information on how to participate in internal peer review and professional development programs.
- Assistance with developing interdisciplinary research teams and large research team grant applications.
- Assistance with identifying research mentors.
- Facilitation of grant writing enhancement programs and other professional development workshops throughout the year.
- Information about the SSHRC and CIHR USRA program.

Proposal Development and Research Strategies in the Natural Sciences and Engineering

Contact: Dr. Alexandria (Lexi) Haslehurst, Research Facilitator (Natural Sciences and Engineering)
 FB 2013 E | 807-343-8010 ext. 8290
 E-mail: nserc.research@lakeheadu.ca

- Pre-award assistance with proposal strategies and grant writing in the natural sciences and engineering.
- Information on funding opportunities and strategies to leverage funds for industry-partnered research.
- Information on how to participate in internal peer review and professional development programs.
- Information on NSERC and other granting programs supporting research in the natural sciences and engineering (Mitacs, NFRF, OCI, etc.).
- Assistance with developing interdisciplinary research teams and large research team grant applications.
- Assistance with identifying research mentors.

- Facilitation of grant writing enhancement programs and other professional development workshops throughout the year.
- Information on the NSERC USRA program.

International Research Collaborations, Partnerships, and Faculty and Student Research Mobility

Contact: Jill Sherman, International Research Facilitator
 FB 2013 F 807-343-8010 ext. 8014
 Email: intl.research@lakeheadu.ca

- Pre-award assistance with proposals and grant writing on international funding opportunities, including Horizon Europe, NSERC Alliance International, and US and global funding agencies and transnational funding platforms.
- Information and assistance with international research funding opportunities and faculty/student research mobility opportunities (inbound and outbound).
- Coordinator for Mitacs Globalink international programs (GRA, GRI)
- In collaboration with Lakehead International, support for Global Affairs Canada scholarship programs (ELAP, SEED, SICS, other)
- Assistance with strategies for developing international research collaborations, institutional partnerships.
- Support for international research MOUs.
- Secretariat for the CALAREO Consortium.

Economic Development & Research Support, Simcoe County

Contact: Dr. Rebecca Heffernan, Director, Economic Development & Research Support, Orillia
 OR 1039 | 705-330-4010 ext. 2022
 Email: orillia.research@lakeheadu.ca

- General inquiries and advice on strategies to increase research and innovation capacity at the Orillia campus and Barrie STEM Hub.
- Assistance establishing research collaborations, opportunities, and community and private sector partnerships in Orillia, Barrie, Simcoe County, and beyond.
- Assistance developing funding applications and proposals for researchers at the Orillia campus and Barrie STEM Hub .

Research Proposal Development and Research Strategies in Equity, Diversity and Inclusion (EDI) and Health

Contact: EDI/CIHR Research Facilitator (Vacant)
 For EDI and health-related proposal assistance please contact:
 Dr. Nicole Westlund Stewart, Research and Knowledge Mobilization Facilitator
 807-343-8010 ext. 8862
 E-mail: sshrc.research@lakeheadu.ca

Dr. Alexandria (Lexi) Haslehurst, Research Facilitator
(Natural Sciences and Engineering)
807-343-8010 ext. 8290
E-mail: nserc.research@lakeheadu.ca

- Assistance with developing EDI plans in accordance with funding guidelines.
- Access to EDI training programs.
- Promotion and support of EDI practices in the research enterprise.
- Pre-award assistance with proposal strategies and grant writing in all health and biomedical research areas.
- Information on CIHR and other granting programs supporting health-related research.
- Assistance with developing interdisciplinary research teams and team grant applications.
- Assistance with identifying research mentors.
- Facilitation of the grant writing enhancement programs and other professional development workshops throughout the year.

Ethics Oversight – Human Participants and Animal Care

Contact: Sue Wright, Manager, Research Ethics and Contracts
FB 2013 A | 807-343-8010 ext. 8283
Email: susan.wright@lakeheadu.ca

- Questions regarding management of the Research Ethics Board and Animal Care Committee.
- Regulatory responsibilities
- Board membership

Research/Industry Partner Agreements, Sub-Awards and Post-Award Grant Administration

Contact: Sue Wright, Manager, Research Ethics and Contracts
FB 2013 A | 807-343-8010 ext. 8283
Email: susan.wright@lakeheadu.ca

- Review, drafting and negotiation of research agreements, industry partner agreement, contribution agreements, external contractor agreements, and sub-contracts with external research sponsors and partners including Tri-council, industry, federal and provincial governments, Indigenous Groups and the not-for-profit sectors.
- Review and negotiation of various IP related contracts, including material transfer agreements and confidentiality agreements.
- Request approval for amendments to agreements, extensions, change requests to budgets, etc.
- Agreement execution
- Obtain approvals for the establishment of research accounts.

Research Ethics Facilitator

Contact: Sheena Beach, Research Ethics Facilitator
FB 2013 | 807-343-8010 ext. 8933
E-mail: research.ethics@lakeheadu.ca

- General inquiries on the application and approval process for research involving human participants and animal care.
- Meetings with the Manager, Research Ethics and Contracts.
- Information on the application and approval process for research involving human participants through the Research Ethics Board.
- Information on research involving animals through the Animal Care Committee.
- Requesting conditional release of research funding prior to ethics approval.
- Requesting an ethics training workshop for students.

Research Security & Data Management Specialist

Contact: Andrew Austin, Research Security & Data Management Specialist
FB 2004J | 807-343-8010 ext. 8190
Email: security.research@lakeheadu.ca
rdm.research@lakeheadu.ca

- Research security risk assessment for research projects & out of country travel
- Controlled goods/export control compliance
- Background checks for international collaborations including visiting scholars and students
- Assistance with the development of research data management plans
- Data storage and cybersecurity guidance

Senior Animal Care Technician

Contact: Sarah Leduchowski, Registered Veterinary Technician
LUACF (Munro St.) & BAF (Centennial Building)
807-343-8010 ext. 7826
E-mail: sleduch1@lakeheadu.ca

- Inquiries regarding animal care facilities.
- Assistance with humane animal care best practices for research with animals.

Office of Innovation, Partnerships and Economic Development (IPED)

Technology Transfer, Intellectual Property (IP), Industry Research Partnerships and Economic Development

Contact: Currently Vacant, Director, Innovation Development (please contact Sue Wright)
FB 2004 D | 807-343-8010 ext. 8724

- Advice and information regarding the protection of university IP through patent, copyright and trademark.
- Negotiation of university-industry research agreements.
- Commercialization, licensing and knowledge transfer services.
- Review of various IP related contracts, including material transfer agreements and confidentiality agreements.
- Advice and assistance with the creation of university spin-off companies.
- Provide marketing assistance for finding licensees for university-created IP.

Contact: Bill Maloney, Director, Industry Research Partnerships
FB 2004 A | 807-343-8010 ext. 8793
Email: bmaloney@lakeheadu.ca

- Accessing researchers, industry, government, businesses, etc. to identify potential research partnership opportunities.
- Accessing funds and preparing research proposals to support university-industry research projects and commercialization grants.
- Administration and support for the Mitacs Business Strategy Internships funding program.

Contact: Rebecca Heffernan,
Director, Economic Development & Research Support Orillia
OR 1039 | 705-330-4010 ext. 2022
Email: orillia.research@lakeheadu.ca

- Facilitate the development of industry, not-for-profit, and government research partnerships.
- Support the establishment of industry-academic partnership as well as funding applications
- Connection to economic development projects and initiatives in Orillia, Barrie and Simcoe County

Contact: Alyson MacKay, Manager, *Ingenuity*
FB 2004 C | 807-343-8010 ext. 8324
Email: amackay@lakeheadu.ca

- Startup and business development support.
- General knowledge and assistance on locating business development resources including funding opportunities and mentorship.
- Inquiries into accessing resources at *Ingenuity*.

Contact: Alexandra De Leon, Administrative Officer
 FB 2004 | 807-343-8010 ext. 8871
 Email: iped@lakeheadu.ca

- General inquiries regarding Technology Transfer, Intellectual Property, Industry Research Partnerships, Economic Development.
- Scheduling, planning industry partnership or innovation events, educational workshops or administrative management of the Office of Innovation, Partnerships and Economic Development office.
- Meetings with either Director at the Office of Innovation, Partnerships and Economic Development.

Lakehead University Instrumentation Laboratory (LUIL) and Lakehead University Centre for Analytical Services (LUCAS)

Contact: Dr. Francis Appoh, Director
 LUIL/PDNA, LUCAS, 807-343-8010 ext. 8853
 Email: francis.appoh@lakeheadu.ca

- Information on the policies and procedures for accessing scientific instrumentation located in the LUIL and PDNA Labs.
- Information on the analytical testing services available through LUCAS.

Laboratory Safety, Biosafety and Radiation Safety

Contact: Brenda Huska, HR Officer - Safety
 Human Resources, Avila Building, AC 153
 807-343-8010 ext. 8806
 Email: labsafety@lakeheadu.ca

- To arrange for general safety training.
- For information about identifying biohazards, or to obtain an application to work with biohazards.
- Information about activities involving radiation, lasers, laboratory, or fire safety.
- Access to the online chemical inventory system.

Research Accounting

Contact: Margot Ross, Manager, Research, Trust and Accounting
 Financial Services, UC 0002 | 807-343-8010 ext. 8730
 Email: margot.ross@lakeheadu.ca

- For advice and information on the eligibility of research expenditures in accordance with Lakehead University policies and agency guidelines and the purchasing of research-related equipment and materials.
- For the preparation of financial reports and invoices for research grants and contracts.
- For access to the University financial system for electronic purchase orders and real time financial reporting of your grant funds.
- For the processing of research expense reimbursement requests such as travel claims.
- For access to the Concur Travel system for electronic travel requests and expense claims.

Communications and Media Relations

Contact: Jaclyn Bucik
 Communications and Media Relations Advisor
 OA 3005 | 705-330-4010 ext. 2014
 Email: mediarelations@lakeheadu.ca

- Media events and media relations.
- Media training and other resources.

Faculty of Graduate Studies

Contact: Cathie O'Connor, Manager
 Faculty of Graduate Studies, FB 2010 E | 807-343-8010 ext. 8099
 Email: coconnor@lakeheadu.ca

- Degree completion advice
- Current graduate student progression advice
- Faculty - Student relationship support
- Academic Integrity referrals
- Leave of Absence and Time Extension assessments
- Academic programming opportunities

Contact: Maegen Lavallee, Funding Officer
 Faculty of Graduate Studies, FB 2010 C, 807-343-8010 ext.7257
 Email: funding.grad@lakeheadu.ca

- Oversees the following faculties: Education, Engineering, Health & Behavioural Science, Natural Resources Management
- For assistance in the submission of graduate scholarship applications (e.g., NSERC, SSHRC, CIHR, and OGS).
- To arrange payment of stipends and awards to graduate students from faculty research grants.

Contact: Taylor Laughton, Funding Officer
Faculty of Graduate Studies, FB 2010 B, 807-343-8010 ext.8885
Email: scholarship.grad@lakeheadu.ca

- Oversees the following faculties: Business Administration, Science & Environmental Studies, Social Sciences & Humanities, as well as travel & financial need bursaries
- For information on all student funding opportunities to support graduate training (Masters and Ph.D.).
- To arrange payment of stipends and awards to graduate students from faculty research grants.

Office of Research Services

The Office of Research Services (ORS) is delighted to welcome you to Lakehead University. This guide is intended to help you begin the development of a successful research career at Lakehead.

The mandate of the ORS is to support and facilitate research and scholarship activities in accordance with the University's [Strategic Plan](#) and [Research Plan](#). We strive to continuously improve our research administration services by adopting new systems and best practices to reduce administrative burden on researchers with the goal of increasing research productivity and success!

ORS is the first point of contact for faculty members who are seeking financial support for their research or assistance in administering their program of research. We provide researchers with up-to-date access to information on major research funding programs, as well as a multitude of other research funding sources. We also serve as the central point of contact for all major research funding agencies, keeping abreast and advising researchers of upcoming changes in the funding environment and associated guidelines and application procedures, as well as new funding directions and initiatives.

We can assist with your proposal and post-award administration

The ORS provides assistance to researchers in preparing funding proposals, particularly those of a large-scale collaborative nature. ORS also initiates and coordinates visits and webinars to the University by program officers of granting agencies in order to provide university researchers with access to first-hand information about new programs and directions of these agencies. In addition, we act as a resource to the Senate Research Committee and its various sub-committees.

All research grant applications as well as contract proposals are reviewed by ORS staff prior to their submission to ensure compliance with the policies and requirements of the university and the particular funding agency. Once awarded, all research agreements with the federal and provincial governments, not-for-profit sector, industry and agreements related to intellectual property are negotiated by ORS on behalf of the university and its researchers.

Contract Review & Negotiation

ORA drafts and negotiates legal agreements such as:

- intellectual property assignments;
- licensing agreements;
- industrial grants;
- industrial research contracts and related partnership agreements;
- data sharing agreements;
- confidentiality, non-disclosure agreements, and material transfer agreements.

Researchers are always encouraged to contact IPED for assistance with negotiating such research agreements as early as possible.

We can help you develop your Equity, Diversity and Inclusion (EDI) plans for research proposals

Many funding agencies are now requiring EDI plans to be developed as part of grant applications (ie. New Frontiers Research Fund, Tri-agencies, CFI, etc). Staff in the ORS have extensive training in developing EDI plans and can support you in developing your own EDI action plan for your research team. In the spring of 2024, the ORS launched the new Certificate Program for Inclusive Research Leadership that is open to all faculty members. This certificate program will assist faculty members with developing their EDI plans, proposals, and establishing best practices within their research group. The EDI and Health Research Facilitator is available to help researchers develop EDI research strategies within their research proposals.

For additional resources related to EDI in research, please visit:

<https://www.lakeheadu.ca/research-and-innovation/research-services/resources/edi-in-research>

We can help facilitate interdisciplinary research collaborations and connect you to Indigenous communities, health agencies, not-for-profit community partners and government organizations

Collaboration has emerged as a key requirement in many federal and provincial research programs. The ORS, through its research facilitators, helps to connect researchers in the natural sciences and engineering, social sciences, humanities and health with academic colleagues, not-for-profit organizations, government, Indigenous communities, and other universities seeking to develop sustainable solutions to social, environmental, health, and cultural challenges. The SSHRC and Knowledge Mobilization Research Facilitator and the Director, Economic Development & Research Support in Orillia, actively works to connect researchers to Indigenous communities, health agencies, not-for-profit community partners and all levels of government and actively supports knowledge-mobilization initiatives in the social sciences, humanities and health. The ORS is a member of [Research Impact Canada](#) and [Community-Based Research Canada](#). The ORS also works closely with IPED to make connections with industrial partners.

We can help you with your research ethics, regulatory requirements and the responsible conduct of research

The ORS administers the university's research ethics programs (Research Ethics Board and Animal Care Committee) and works with human resources to deliver our biosafety program as it relates to research. The Director of Research Services is also available for consultations regarding research integrity matters.

We can help you promote your research achievements

In collaboration with the media relations team, we can assist you with preparing media releases and events, promoting new research funding awarded to you, exciting research and innovation impacts and results as well as recognition of national and international awards and prizes.

Location

The ORS in Thunder Bay is located in the Centre for Advanced Studies in Engineering and Sciences, CASES (FB), building at 955 Oliver Road, Thunder Bay. In Orillia and Barrie, grant writing and partnership development support can be accessed by contacting Rebecca Heffernan, Director, Economic Development and Research Support (Orillia) at orillia.research@lakeheadu.ca. Please do not hesitate to reach out and meet our staff. We are committed to assisting you with all your research needs. All researchers are encouraged to visit the ORS website for additional information at <http://research.lakeheadu.ca/> or contact:

Darren Lampson
Research Business Analyst and Assistant to the Director,
Research Services
FB 2013 C | 807-343-8010 ext. 8934
E-mail: research@lakeheadu.ca

Internal Deadlines

Please note that **all external funding applications must be submitted to the ORS for internal review at least two weeks prior to the external deadline**. Please refer to the **Policy for Application and Administration of External Research Grants and Contracts**.

Tri-Agency and CFI Research Programs

Natural Sciences and Engineering Research Council (NSERC)

The Natural Sciences and Engineering Research Council of Canada funds visionaries, explorers and innovators who are searching for the scientific and technical breakthroughs that will benefit our country. We are Canada's largest supporter of discovery and innovation. We work with universities, colleges, businesses and not-for-profits to remove barriers, develop opportunities and attract new expertise to make Canada's research community thrive. We give Canadian scientists and engineers the means to go further because we believe in research without borders and beyond frontiers.

For forms, guidelines, and other NSERC funding opportunities, please go to http://www.nserc-crsng.gc.ca/index_eng.asp

Social Sciences and Humanities Research Council of Canada (SSHRC)

The Social Sciences and Humanities Research Council (SSHRC) is the federal research funding agency that promotes and supports research and training in the humanities and social sciences.

For forms, guidelines, and more information on SSHRC funding opportunities, please go to <https://sshrc-crsh.canada.ca/en.aspx>

Canadian Institutes of Health Research (CIHR)

The Canadian Institutes of Health Research (CIHR) is Canada's federal funding agency for health research. Composed of 13 Institutes, we collaborate with partners and researchers to support the discoveries and innovations that improve our health and strengthen our health care system.

For more information: <http://www.cihr-irsc.gc.ca/e/193.html>

Canada Foundation for Innovation (CFI)

John R. Evans Leaders Fund (JELF)

The CFI's mandate is to increase the capability of Canada's universities, colleges, research hospitals and non-profit research organizations to carry out high quality research by investing in research infrastructure.

The CFI funds up to 40 percent of a project's research infrastructure costs. This funding is then leveraged to attract the remaining investment from partners in the public, private and non-profit sectors. One of CFI's major programs is the John R. Evans Leaders Fund (JELF). The John R. Evans Leaders Fund enables a select number of an institution's excellent researchers to undertake leading-edge research by providing them with the foundational research infrastructure required to be or become leaders in their field. In turn, this enables institutions to remain internationally competitive in areas of research and technology development, aligned with their strategic priorities.

Universities are provided with funding envelopes under the JELF. Depending on availability within our CFI JELF allocation, the ORS issues a CFI JELF internal call for normally in the fall.

For more information on the CFI in general, please go to <http://www.innovation.ca>

Funding/Award Opportunities Resources

Our weekly [Research and Innovation Bulletin](#) includes upcoming calls for proposals or awards. This Bulletin also includes information on internal and external research-related

news items and upcoming events (including funding agency information sessions). The ORS also maintains an external funding opportunities and awards database.

Grant Writers

The Office of Research Services maintains a list of grant/professional writers on its web site who are available to faculty members to aid in the planning, writing and/or editing of grant proposals. Information on the services that each individual grant writer offers can be accessed by clicking on "Services Offered" under his or her name. A particular grant writer can then be contacted through the use of an online form.

For more information about writers:

<https://www.lakeheadu.ca/research-and-innovation/research-services/resources/writing/grant-roster>

Senate Research Committee

The Senate Research Committee allocates internal seed grants to enhance research capacity development including the facilitation of external grant applications, and scholarly productivity of Lakehead University faculty members.

Funds are for the support of research activities covered under the Tri-Councils' (NSERC, CIHR, SSHRC) mandates. Preference for funding is given to full-time eligible Lakehead faculty members, although in special circumstances part-time faculty and post-doctoral or research fellows may be considered. Limited funds are available, so faculty are expected to develop their research to the point where applications can be made externally to NSERC, CIHR, SSHRC or other external funding sources. Senate Research Committee funds should be regarded as supplementary.

The Committee considers requests from eligible faculty on the basis of merit, need, and the availability of funds. All funds are awarded on a competitive basis, although support is preferentially awarded to new faculty and to those who currently hold, or are currently applying for, external Tri-Council funds. Please note that these internal funds are generated through the success of Lakehead University faculty in external Tri-Council competitions.

Senate Research Committee - Internal Research Funds and Deadlines

Fund	Deadline
Applications for the following internal funding opportunities (except RGILS) are only available through the Romeo Research Portal. To access the portal, log into MyInfo, then select "Romeo Research Portal " under the web utilities icon.	
Research Development Fund maximum grant per year - \$10,000	January 20
Conference Travel Fund maximum grant per year - \$1,500	May 10 October 10
Open Access Publication Fund maximum grant per year - \$2,000	Open Deadline
Publication Assistance Grant maximum grant per year - \$1,500	January 20
Visiting Scholar Grant maximum grant per year- \$1,000	January 20
Regional Research Fund maximum grant per year - \$1,500	January 20
Research Grant in Lieu of Salary (RGILS) To access guidelines & application form, click here	Open Deadline
Distinguished Researcher Award	January 10
Research Excellence Award	January 10
Research Support Award	January 10

Faculty of Graduate Studies

The Faculty of Graduate Studies (FGS) is responsible for the administration and development of graduate programs at Lakehead University. All graduate student funding is administered through this office, including graduate assistantships. The office administers both internal scholarships, awards and bursaries, and external scholarships such as CIHR, NSERC, OGS, and SSHRC.

To supervise graduate students you must be a member of the FGS. In some departments or schools, new faculty take on the role of graduate supervision immediately; talk to your chair/director and graduate coordinator about the practice in your particular department or school. For detailed information on graduate supervision, and how to apply to become a member of the faculty, see the graduate supervision policy at: <https://www.lakeheadu.ca/programs/graduate/regulations/responsibilities>

Faculty having any questions regarding their graduate program, graduate regulations or funding for their graduate students should contact the FGS. For more information, contact:

Catharine O'Connor, Manager Faculty of Graduate Studies
FB 2010 E | 807-343-8010 ext. 8099
Email: coconnor@lakeheadu.ca

Research Support Services at the Library

The Lakehead Library can help researchers make their results public by:

- Submitting articles to Knowledge Commons, Lakehead's institutional repository that allows researchers to meet grant requirements for open access;
- Assisting with the creation of data management plans (DMPs) that may include documentation on file formats, file-naming conventions, organization, data security and data-sharing.
- Assisting with the Tri-Agencies Open Access Policy compliance and placing data sets in Borealis (Lakehead Dataverse), a repository that makes data visible on the Web.

- Providing publisher information – help with finding an open access journal or a journal that permits self-archiving within a grantor’s timeframe; help with avoiding the predatory publisher trap, and providing information on publishers who offer discounted article processing charges to Lakehead researchers.
- Assisting with tracking metrics such as article-level usage counts, journal impact factors and alt-metrics where available, with establishing research identifiers and with understanding author rights. In addition, for journal editors, the library offers hosting on Open Journal Systems (OJS).
- Providing Liaison Librarians who can answer questions or meet to discuss your research support needs. A list of Liaison Librarians by discipline is available at: <https://library.lakeheadu.ca/about/liaison-librarians-archivists>.

Please visit our Research Support webpage at <https://library.lakeheadu.ca/services/research-support> for more information or contact:

Valerie Gibbons, Coordinator of
Research Support Services
807-343-8110 ext. 8165
Email: vgibbons@lakeheadu.ca

Scholarly Communications & Data
Services Librarian
807-343-8110 ext. 8315
Email: payeni1@lakeheadu.ca

Research Accounting

The Office of Financial Services has a team dedicated to assisting researchers with the financial administration of their grants. The Department of Research Accounting is responsible for administering and monitoring all research accounts and for preparing financial statements and reports to the funding agencies. We provide advice on the eligibility of expenses, arrange for account transfers and cost recoveries, prepare invoices to sponsors, and maintain signing authority and access to the research accounts. We can assist with the budget management and payroll costing. Research accounting is located in the basement of the University Centre in UC0002. More details are available at:

<https://www.lakeheadu.ca/faculty-and-staff/departments/services/finance/research-trust-accounting>. For more information contact:

Margot Ross
Manager, Research, Trust and Accounting
Financial Services, 807-343-8010 ext. 8730
955 Oliver Road, UC 0002C, Thunder Bay
Email: margot.ross@lakeheadu.ca

How to Set Up a Research Account

To ensure that all ethical protocols are in place prior to account establishment and to capture data for our records and statistics, all research accounts are to be authorized and established by ORS. **ORS requires the following documents before establishing a research account:**

1. **Copy of signed Agreement or Letter/Notice of Award.**
2. **Copy of Research Proposal and any updates.**
3. **New updated budget if one is not included in the Agreement or Proposal (or if the amount awarded is different than requested).**
4. **Completed and signed Research Proposal Approval Form (RPAF).**
5. **If applicable, ethical approval from the appropriate certification committee/board (i.e., REB, ACC, Biosafety).**

If a project involves research with human participants or animals, contact Sue Wright at extension 8283. If the project involves biohazardous materials, contact the Laboratory Safety Officer at extension 8806. Please note that a research account will not be established until ethical approval is in place or until early release of funds approvals are in place. For more information, contact:

Sue Wright, Manager, Research Ethics and Contracts
FB 2013 A | 807-343-8010 ext. 8283
Email: susan.wright@lakeheadu.ca

Research Ethics Board

The Lakehead Board of Governors has established the Research Ethics Board (REB) which is committed to the ethical integrity of all research and pedagogical research activities involving humans conducted in its jurisdiction or under its auspices, by its faculty, staff or students, regardless of where it is conducted.

The REB is guided by the Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans 2 (TCPS 2).

The Lakehead University Research Ethics Board Terms of Reference is available at: <https://www.lakeheadu.ca/about/policies-procedures/terms-of-reference>

The following forms are available through the [Romeo Research Portal](#) To log in, use your myPortal username and password.

- Researchers Agreement Form (REB submission form)
- Request for Renewal form (under Events)
- Request for Amendment for an Approved Project form (under Events)
- Final Report form (under Events)
- Request for Early Release of Funds form

Ethics proposals are submitted to the ORS. The ethical review process for minimal risk research generally takes three weeks.

For additional information about the ethical review process, contact:

Dr. Jennifer Chisholm
Interim Chair, Research Ethics Board
807-343-8010 ext. 8285
mflegel@lakeheadu.ca

Sheena Beach
Research Ethics Facilitator
807-343-8010 ext. 8933
research.ethics@lakeheadu.ca

Animal Care Committee

The Animal Care Committee is overseen by the Vice-President, Research and Innovation. It was established in the 1970s to ensure the ethical use of animals used in teaching and research. The committee composition and terms of reference are governed by the Canadian Council on Animal Care and Ontario's Animals for Research Act. The administration office for the committee is the ORS.

The committee's role is to ensure that research and teaching activities involving animals at Lakehead University is conducted within the guidelines of the Canadian Council on Animal Care and the Animals for Research Act. Animal utilization protocol forms must be completed for all animal use including research, teaching, testing, and field studies, and submitted to the committee via the Romeo Research Portal for approval. Researchers are invited to the committee meetings to discuss their protocols and are encouraged to bring along students who will be involved in the research. Protocols are reviewed on an annual basis under the guidelines of the Canadian Council on Animal Care. The committee also provides training for researchers to enable them to become familiar with animal care issues.

Further information on animal care is available at:

<https://www.lakeheadu.ca/research-and-innovation/ethics/animals>

Applications, amendments, and renewals for animal utilization protocols are available through the Romeo Research Portal at: <https://erpwp.lakeheadu.ca/>. To log in, use your MyInfo username and password.

For more information, you may also contact:

Dr. Nathan Basiliko
Chair, Animal Care Committee
807-343-8010 ext. 8570
nbasilik@lakeheadu.ca

Research Ethics Facilitator
807-343-8010 ext. 8933
research.ethics@lakeheadu.ca

Biosafety Committee

Lakehead's comprehensive risk management program for biological hazards, the biosafety program, is the responsibility of the Biosafety Committee, which reports to the Vice-President, Research and Innovation. All faculty, researchers, and students who work with biological hazards must acquire prior approval and act in accordance with the program.

A biological hazard is an agent of biological origin that has the ability to produce deleterious effects on human beings. Biohazards can include bacteria, viruses, fungi,

parasites, and plants. Biohazards may not be as well known, or as visible as chemical or physical hazards, however, they are capable of causing very serious health effects to exposed individuals.

For information about identifying biohazards, or to obtain an application to work with biohazards, contact the Lab Safety Officer at 807-343-8010 ext. 8806.

For additional information, please visit the Human Resources Health and Safety website at

<https://www.lakeheadu.ca/faculty-and-staff/departments/services/hr/health-safety/tb/biosafety>, or contact:

Brenda Huska, HR Officer - Safety
Human Resources, 807-343-8010 ext. 8806
955 Oliver Road, AC 153, Thunder Bay
Email: labsafety@lakeheadu.ca

Laboratory Safety

Laboratory work at Lakehead University requires various elements of training depending on the type of work involved. Work with biohazardous materials, x-rays, radiation, chemicals, and lasers requires additional training and adherence to safety programs. All faculty undertaking laboratory research or work require safety training. It is also the responsibility of the faculty to ensure all personnel within their lab group complete necessary safety training, this includes students, staff, volunteers, visiting researchers, and any other individuals who work within the laboratory space. Training elements expire after varying lengths of time, and must be completed again once expired. Laboratories also require signage on all doorways to communicate hazards found inside as well as emergency contact information. The request form is found through the laboratory safety webpage, under Hazardous Materials Signage.

For additional information, please visit the Human Resources Health and Safety website at <https://www.lakeheadu.ca/faculty-and-staff/departments/services/hr/health-safety>, or contact:

Brenda Huska, HR Officer - Safety
Human Resources, 807-343-8010 ext. 8806
955 Oliver Road, AC 153, Thunder Bay
Email: labsafety@lakeheadu.ca

Chemical Safety

Any work using chemicals must adhere to Lakehead University's chemical safety program. This program includes policies, procedures, and training related to the use, purchasing, and storage of chemicals on campus. Chemicals must be inventoried using Lumin, the online hazardous materials inventory and waste management software.

New faculty must request a laboratory user login to access the system. Any work with chemicals requires annual WHMIS training for all faculty and personnel.

For additional information, please visit the Human Resources Health and Safety website for chemical safety at

<https://www.lakeheadu.ca/faculty-and-staff/departments/services/hr/health-safety/tb/lab-safety/chemical-safety-program> or contact:

Brenda Huska, HR Officer - Safety
Human Resources, 807-343-8010 Ext 8806
955 Oliver Road, AC 153, Thunder Bay
Email: labsafety@lakeheadu.ca

Laser Safety

Lakehead University must adhere to laser safety standards on campus to ensure compliance with applicable provincial legislation, guidelines and standards. Work with Class 3 and Class 4 lasers at Lakehead University must meet the requirements set by the Ontario Ministry of Labour and ANSI standards 136. Prior to laser work commencing, the Lab Safety Officer will review SOPs, PPE and training to ensure that the standard set in ANSI 136 is met.

For additional information, please visit the Human Resources Health and Safety website at: <https://www.lakeheadu.ca/faculty-and-staff/departments/services/hr/health-safety> or contact:

Brenda Huska, HR Officer - Safety
Human Resources, 807-343-8010 ext. 8806
955 Oliver Road, AC 153, Thunder Bay
Email: labsafety@lakeheadu.ca

Radiation Safety

It is a requirement of federal legislation that all activities involving radioactive materials are licensed by the Canadian Nuclear Safety Commission (CNSC); therefore, Lakehead University must maintain control of radioactive hazards on campus to ensure compliance with applicable federal legislation, guidelines and regulatory documents. For additional information, please visit the Human Resources Health and Safety website at: <https://www.lakeheadu.ca/faculty-and-staff/departments/services/hr/health-safety> or contact:

Brenda Huska, HR Officer - Safety
Human Resources, 807-343-8010 ext. 8806
955 Oliver Road, AC 153, Thunder Bay
Email: labsafety@lakeheadu.ca

Working with Communications and Media Relations

Connecting you with local, national and international media outlets, including radio, TV, print and online news sites, the Communications and Media Relations team shares your story in a way that will maximize exposure and help keep you focused on what you do best.

Our team can assist researchers wanting to share their findings, impacts, discoveries and innovations. We also serve as the office reporters go to for information about Lakehead University and its researchers.

Why talk to the media?

The media can be a powerful and influential tool. Here at Lakehead, we rely on the provincial and federal governments and funding agencies to support research, scholarly activity, and student training. It is important that we demonstrate to governments, agencies, taxpayers, and sponsors that their money is well spent. One of the most effective ways to get that message across is through the media.

Our team works closely with faculties and the Office of Research and Innovation to identify stories that demonstrate how the university is pursuing its research mission. Captivating stories of successful research not only make a persuasive argument for attracting world-class faculty and students, but also encourage on-going financial support for research.

You are the expert!

The media often calls upon Lakehead faculty members and researchers to share their expertise in an interview. By responding to a media opportunity, faculty obtain greater public awareness of their work and the university receives recognition for its scholarly efforts in the social, cultural, and economic life of our region and country.

Remember, you are the expert. If you are unsure about something, tell the journalist that and promise to get back with an answer right away or refer them to another faculty member who might be more qualified to answer that question. Stay within your area of expertise and responsibility. **If you are asked to speak on behalf of Lakehead University, please refer the journalist to the media relations team** (see contact information below).

Communicating information successfully to the media requires a well-prepared strategy and an understanding of what the media expects from you. Upon request, our media relations team will provide researchers with media training designed to assist them in becoming more effective in their interactions with print, radio, and broadcast reporters.

To begin the process of planning research-related media (important to also ensure potential communication embargos have been removed by the research sponsors), or if you have a story, study or research findings you would like to share, please reach out to:

Melissa Burton, Coordinator of Communications and Special Projects
Office of the Vice-President, Research and Innovation
FB 2004 B | 807-343-8010 ext. 8709
communications.research@lakeheadu.ca

To access media training opportunities or additional media relations support for yourself or your research group, please contact:

Jaclyn Bucik
Communications and Media Relations Advisor
OA 3005 | 705-330-4010 ext. 2014
mediarelations@lakeheadu.ca

Research Policies and Procedures

Faculty should be familiar with the following Lakehead University research-related policies and other internal research and innovation-related guidelines which can be found at: <https://www.lakeheadu.ca/research-and-innovation/policies>

- ❖ Animal Emergency Response Plan
- ❖ Application and Administration of External Research Grants and Contracts
- ❖ Approval Authority Policy
- ❖ Biosafety Policy and Procedures
- ❖ CFI Infrastructure Operating Fund (IOF) Guidelines and Institutional Allocation Plan
- ❖ Conflict of Interest
- ❖ Guidelines Respecting Students as Research Participants
- ❖ Intellectual Property Policy
- ❖ Lakehead University Policy on Postdoctoral Fellows
- ❖ Policy for Transfer/Disposal of Research Equipment
- ❖ Policy Framework for Research Ethics Involving Humans at Lakehead University
- ❖ Procurement Policy
- ❖ Recovery of Overhead (Indirect Costs) on University-Administered Research Funds
- ❖ Research Centres and Institutes, Policies and Procedures
- ❖ Research Data Guidelines and Classification Standard
- ❖ Research Funded Positions Employment Policy
- ❖ Research Integrity Policy
- ❖ Travel Expense Policy

Office of Research Services Forms

All forms concerning the ORS can be found at:
<https://www.lakeheadu.ca/research-and-innovation/forms>

Office of Innovation, Partnerships and Economic Development

"Development through Innovation"

The Office of Innovation, Partnerships and Economic Development (IPED) is responsible for the management and commercialization of the university's intellectual property (i.e. licensing and start-up companies), and the handling of legal and other issues related to IP protection, development and marketing. IPED also assists researchers in transferring knowledge and innovations to those outside the university community.

IPED is integral in developing and maintaining linkages with research and business partners, including industry, community organizations, and all levels of government, and other universities.

IPED is responsible for the following main areas: industry liaison; contract creation, review, and negotiation; IP commercialization services; commercialization funding; entrepreneurship, economic development, and outreach activities.

Industry Research Partnerships

IPED works closely with members of the university community and the university's partners facilitating interactions between groups of researchers and specific sectors of the non-academic world. By connecting new and established companies with the technologies and resources at Lakehead University, IPED creates partnerships between university researchers and industry in local and global markets. These strategic links generate new investment and long-term economic benefits for the university, its industrial partners, and the community.

IP Commercialization Services

IPED offers assistance in each of the five major steps of the IP Commercialization Cycle:

- **Research:** assisting with intellectual property and related clauses in research contracts, and all aspects of industry sponsored research including finding industry partners;
- **Discovery:** helping researchers determine which discoveries to consider moving through the commercialization cycle;
- **Disclosure:** helping researchers create valid invention disclosures, the first step in protecting your discoveries;

- **Evaluation:** evaluating a business, intellectual property, or potential products/services;
- **Commercialization:** including commercialization plan development and implementation, and where appropriate, new business creation and support.

Commercialization Funding

Several funding programs exist to help move inventions further down the innovation continuum, from concepts to prototypes to marketable products and/or services. IPED is here to assist University faculty and researchers with sourcing potential funding for IP commercialization.

Outreach Activities

IPED offers seminars and other continuing education periodically on request to faculty, staff, students, and the local community as a whole. Seminars can cover various topics, including intellectual property in general, steps to commercializing technology, and protection of inventions.

Ingenuity

Lakehead's business incubator, *Ingenuity*, is located in the Centre for Advanced Studies in Engineering and Science (CASES) building. *Ingenuity* provides students with pathways to business launch and success by providing resources such as one-on-one support, workspace and co-working space, prototype development, and connections to financial and marketing support. *Ingenuity* is home to 8 hot desks, 2 rentable offices, 2 private meeting rooms, a makerspace, media room, open common space, connections theatre, and community partnership area. *Ingenuity* provides hands-on learning opportunities for students to explore the world of entrepreneurship through workshops, competitions, events and open house seminars. *Ingenuity* welcomes students from all disciplines, as well as alumni and community members, who are interested in launching a business, whether it's for-profit, or not-for-profit.

For more information about IPED and more details about the services we provide, please visit IPED's website at <https://www.lakeheadu.ca/research-and-innovation/iped> or feel free to contact:

Research Centres and Institutes

Anishinaabe Kendaasiwin Institute (AKI)

The principle of Indigenous self-determination in research underpins the newly formed institute. The purpose of AKI is to support mino-bimaadiziwin amongst Anishinaabe peoples, nations and territories through research that is situated in Anishinaabe knowledges and good relationships that are respectful, reciprocal, and anti-colonial. The acronym for the institute, “AKI” means land in Anishinaabemowin. Contact:

Dr. Keira Loukes, Co-Director
Dr. Lana Ray (Anishinaabe Kwe, Waaskone Giizhigook)
Co-Director
807-343-8010 ext. 7131
Email: admin.aki@lakeheadu.ca

<https://www.lakeheadu.ca/research-and-innovation/facilities-centres/anishinaabe-kendaasiwin-institute-aki->

Biorefining Research Institute (BRI)

The BRI’s mandate is to develop cost-effective and environmentally-sound technologies and products from renewable resources as a substitute for imported oil-based fuels and petrochemicals that can create new opportunities for the bioeconomy. Contact:

Dr. Pedram Fatehi, Director
807-343-8010 ext. 8697
Email: admin.bri@lakeheadu.ca
<https://www.lakeheadu.ca/centre/bri>

Centre for Education and Research on Aging & Health (CERAH)

CERAH's mission is to conduct high quality knowledge translation through rigorous research and evidence-based education to advance health and social care for an aging population and promote the health and well-being of people aging across the life span.

Contact:

Dr. Idevania Costa, Director
807-343-8010 ext. 8340
E-Mail: idevania.costa@lakeheadu.ca

<https://www.lakeheadu.ca/research-and-innovation/facilities-centres/cerah>

Centre for Health Care Ethics (CHCE)

The mission of CHCE is to foster high quality, ethical health care through research, education, and capacity building. Contact:

Dr. Kristen Jones-Bonofiglio, Director
807-343-8010 ext. 8079
E-mail: chce@lakeheadu.ca
<https://www.lakeheadu.ca/centre/chce>

Centre for Innovation and Entrepreneurship Research (CIER)

The primary purpose of the Centre for Innovation and Entrepreneurship Research is to promote and support research on innovation and entrepreneurship at Lakehead University. Contact:

Dr. Michael Dohan, Director
807-343-8010 ext. 8635
E-Mail: msdohan@lakeheadu.ca
<http://cier.lakeheadu.ca/>

Centre for Northern Studies (CNS)

The CNS is a senate approved research centre comprised of faculty from various disciplines and programs who are active researchers in the field of northern studies. Contact:

Dr. Chris Southcott, Acting Director
807-343-8010 ext. 8349
E-mail: chris.southcott@lakeheadu.ca

<https://www.lakeheadu.ca/research-and-innovation/facilities-centres/northern-studies>

Centre for Research on Safe Driving (CRSD)

The mandate of the CRSD is to contribute to the reduction of traffic-related crashes through the understanding of the fundamental processes that support safe driving and through the development of interventions to optimize safe driving. Contact:

Sacha Dubois, Director
807-343-8010 ext. 8630
E-mail: sdubois@lakeheadu.ca
<http://crsd.lakeheadu.ca/>

Centre for Rural & Northern Health Research (CRaNHR)

As a well-established Lakehead University research centre, CRaNHR Lakehead continues to develop its program of research to support research priority areas identified in the [Research Plan \(2024-26\)](#), specifically, social justice, Indigenous research, health research across the life span, and northern studies. Contact:

Dr. Christopher Mushquash, Director
807-343-8010 ext. 8239
Email: chris.mushquash@lakeheadu.ca
<https://www.lakeheadu.ca/centre/cranhr>

Centre of Education and Research on Positive Youth Development (CERPYPD)

The CERPYPD is focused on generating, disseminating and applying knowledge about children and adolescents and their well-being. Contact:

Dr. Jamie Dicasmirro, Director
807-343-8010 ext. 8453
Email: cerpyd@lakeheadu.ca
<https://www.lakeheadu.ca/centre/cerpyd>

Centre of Excellence for Sustainable Mining and Exploration (CESME)

CESME will encourage and support research, education and outreach activities regarding the nature and impacts of mineral resource exploration and extraction, particularly in Northern Ontario. Contact:

Dr. Peter Hollings, Director
807-343-8010 ext. 8329
E-Mail: peter.hollings@lakeheadu.ca
<http://cesme.lakeheadu.ca/>

Enhancing Prevention of Injury and Disability at Work (EPID@Work) Research Institute

The mandate of the EPID@Work Research Institute is to bring people together to reduce impacts of work-related injury and work disability through collaborative applied research and provision of education to enhance knowledge related to injury and disability. Information generated from our research will inform practice and policies aiming to improve health and social outcomes in Northwestern Ontario and beyond. Contact:

Dr. Vicki Kristman, Director
807-766-7184
Email: epid.hbsc@lakeheadu.ca
<https://www.lakeheadu.ca/centre/epid>

Green Process Research Centre (GPRC)

The Green Process Research Centre (GPRC) will be a hub for local and international researchers working on cutting-edge green technologies that will develop new products with the aim of transforming Canadian industries to adopt new sustainable processes with green products that will protect the environment. With its focus on sustainability, the vision of GPRC is well aligned with the strategic research priorities of the university including advanced systems and technologies and the environment and natural resources. As a hub that brings together local, national, and international researchers, the GPRC also fits well with Lakehead's internationalization mandate. Contact:

Dr. Pedram Fatehi, Director
807-343-8010 ext. 8697
Email: pfatehi@lakeheadu.ca
<https://pfatehi.lakeheadu.ca/>

Lakehead Social History Institute (LSHI)

The Lakehead Social History Institute is a partnership of historical researchers at Lakehead University and in the Thunder Bay community. The Institute was constituted by meetings of persons interested in historical research. Contact:

Instrumentation Laboratory

The Lakehead University Instrumentation Laboratory (LUIL) is a multi-purpose, centralized facility which serves researchers and students from various faculties, providing access to the fundamental tools needed for modern research and training. The lab occupies 411 m² of space in the CASES and 65 m² of the Centennial Building respectively, on Thunder Bay campus.

The laboratory houses more than five million dollars of research equipment and much of this equipment is unique to the region. Early in its development, the university decided to operate single versions of fundamental research tools such as a nuclear magnetic spectrometer, an electron microscope, and spectrometers in a central analytical facility. Sharing of equipment is essential to this strategy. This wide range of instrumentation, which is in first-class condition, is accessible to all members of the university community including undergraduate and graduate students under staff supervision.

The instrumentation laboratory is equipped to analyze the composition and structure of a wide range of materials, enabling our staff to provide valuable information towards solving industrial problems. Instrumentation Laboratory External Services is a member of LUCAS and provides accessibility to external users to the laboratory for a fee. Users may visit the laboratory to discuss results or consult with staff by phone. Proprietary information will be kept confidential.

For more information about the instrumentation laboratory and more details about the services we provide, please visit the LUIL website at:

<http://lakeheadu.ca/centre/lucas/laboratories/luil> or feel free to contact:

Lakehead University Centre for Analytical Services (LUCAS)

LUCAS operations have a proven track record in producing timely and accurate reports, allowing users to maintain productivity by responding quickly to production problems. LUCAS facilities are multiple use, providing advanced testing services to regional as well as international clients using the latest in research equipment. The laboratories also welcome Lakehead's brightest students providing the necessary training and hands-on access to the technologies of the future allowing them to develop essential skills to further their research careers or to secure jobs in fields that directly have an impact on Northern Ontario's economic future. LUCAS provides administrative and marketing support to member laboratories. Researchers who might be interested in attracting clients by providing services to commercial companies are encouraged to contact the Director of Analytical Services and ORS. For more information see <http://lakeheadu.ca/centre/lucas>

New faculty members are encouraged to contact:

Dr. Francis Appoh
Director, Analytical Testing Services LUCAS/LUIL/PDNA,
807-343-8010 ext. 8853
E-mail: fappoh@lakeheadu.ca

or

Karen Maa
Administrative Assistant,
807-343-8010 ext. 8590
E-mail: kmaa@lakeheadu.ca

or any of the individual laboratory directors for information about the services they offer.

The following research facilities are members of LUCAS:

[Aquatic Toxicology Research Centre \(ATRC\)](#)

The ATRC is an aquatic facility that can support a wide range of research into the evaluation and abatement of toxic effects from industrial wastes released into the environment. The ATRC also offers a full range of toxicity testing services to both industry and government, designed to meet current regulatory requirements. These services currently include acute testing with rainbow trout and daphnia. The ATRC is accredited to ISO17025 by the Canadian Association for Laboratory Accreditation (CALA) (see www.cala.ca directory for a list of tests). Contact:

Dr. Michael Rennie, Academic Director
807-343-8010 ext. 7860
E-mail: mrennie@lakeheadu.ca

Tyson Bouchard, Toxicologist
807-343-8010 ext. 8179
E-mail: tbouchar@lakeheadu.ca
<http://lucas.lakeheadu.ca/atrc/>

Biotechnology Laboratory for Enzymes and Bioproducts (BLEB)

BLEB focuses on applied biotechnological analytical services in bioproduct analysis, biodegradation studies, enzyme assays, microbial characterization, and molecular biology studies like gene cloning and protein expression. Contact:

Dr. Wensheng Qin, Director
807-343-8010 ext. 8467
E-mail biotechnologylab@gmail.com
<https://www.lakeheadu.ca/centre/lucas/laboratories/bleb>

Biomass Utilization Research Laboratory (BURL)

BURL offers access to the unique pulping research facilities in the chemical engineering department. The lab contains similar equipment located at pulp and paper mills, as well as equipment that is able to recreate the pulping process. Though the facility is highly involved in research, its facilities are excellent for sampling and testing. Contact:

Dr. Pedram Fatehi, Director
807-343-8010 ext. 8697
E-mail: pfatehi@lakeheadu.ca
<https://www.lakeheadu.ca/centre/lucas/laboratories/burl>

Lakehead University Molecular Archaeochemistry and Residue Services (LUMARS)

LUMARS research and services involve genetics method development. Emphasis on biological remains that have proved challenging to recover biomolecules from using conventional methods. LUMARS services involve design and development of methods to retrieve macromolecules of interest from degraded remains. This has applications in numerous fields - principally archaeology, forensic and medical science. Contact:

Dr. Tamara Varney, Director
807-343-8010 ext. 8204
E-mail: tamara.varney@lakeheadu.ca
<https://www.lakeheadu.ca/centre/lucas/laboratories/lumars>

Lakehead University Geospatial Data Centre (LUGDC)

LUGDC offers services associated with geospatial data mapping. LUGDC has equipment consisting of a large area scanner, GPS units, GPS digital cameras, large

format scanner and tablets with GIS software in the geography department. The heart of the geospatial data centre is a geospatial server and a growing collection of regional, national and international spatial data. Services include: map creation, data acquisition, spatial analysis, and image analysis. Contact:

Dr. Robert Stewart, Director
807-343-8010 ext. 8430
E-mail: rob.stewart@lakeheadu.ca
<http://gdc.lakeheadu.ca>

Lakehead University Environmental Laboratory (LUEL)

LUEL offers multi-parameters testing of soils, sediments, biological tissues, vegetation, waters, and specific chemicals. The laboratory focuses on developing analytical methods to fit specific requirements. The laboratory provides hands-on training of undergraduate and graduate students. LUEL is also accredited to ISO17025 by the CALA for total suspended solids in water(see <https://www.lakeheadu.ca/centre/lucas/services> for a list of tests). Contact:

Dr. Nathan Basiliko, Director
807-343-8010 ext. 8570
E-mail: nbasilik@lakeheadu.ca

Lakehead University Fire Testing and Research Laboratory (LUFTRL)

LUFTRL, a world-class fire research facility, accommodates a large, state-of-the-art certified fire testing furnace that is used to evaluate the fire behaviour of various construction materials and innovative building structural components and assemblies while subjected to elevated temperatures of standard or realistic fire scenarios that can reach up to 1300°C. LUFTRL offers unique fire testing services to research collaborators, industry partners, and clients from various sectors. In addition, LUFTRL offers consultancy services to industry clients and engineering firms in the field of structural fire engineering through conducting required fire endurance tests and/or developing computer models for building systems made of different construction materials, such as mass timber, steel and reinforced concrete. Contact:

Dr. Sam Salem, Founder and Director
807-343-8010 ext. 8011
E-mail: sam.salem@lakeheadu.ca
<https://www.lakeheadu.ca/research-and-innovation/facilities-centres/lucas/lu-fire-testing-and-research-laboratory-luftrl->

Lakehead University Instrumentation Laboratory (LUIL)

The Lakehead University Instrumentation Laboratory is a multi-purpose, centralized facility which serves researchers and students from three faculties, providing access to spectrometers, electron and laser microscopes, and analyzers needed for modern research and training of Canada's future scientists. The Laboratory manages some of the University's most advanced research equipment, much of which is unique to the region. The LUIL provides extensive, hands-on training programs in the use of SEM/EDS, TEM, CONFOCAL Microscopes, NMR, FTIR, ICP-AES/MS, XPS and XRD Spectrometers to students before they begin their research projects. The facility is supported and used by regional resource and health care industries as well as government agencies for multi-party projects in the fields of mineral exploration, process control, material science, and bio-remediation. Contact:

Dr. Francis Appoh, Director, Analytical Testing Services
LUCAS/LUIL/PDPA

Lakehead University Materials Characterization Services (LUMCS)

LUMCS provides chemistry and materials science consulting, plus a full range of chemical analysis and computation services. Contacts:

Dr. Stephen Kinrade, Co-Director
807-343-8010 ext. 8683
E-mail: stephen.kinrade@lakeheadu.ca

Dr. Robert Mawhinney, Co-Director
807-343-8010 ext. 8245
E-mail: rcm@lakeheadu.ca
<http://lucas.lakeheadu.ca/lumcs/>

Lakehead University Mineralogical and Experimental Laboratory (LUMINX)

LUMINX is designed to serve as a bridge between the minerals industry and university researchers by providing advanced mineralogical and geochemical services that are not routinely available from commercial firms:

- Quantitative or qualitative phase and chemical composition analysis of solids.
- Mineralogical/petrographic assessment of geological samples.
- Fluid inclusion microthermometry.
- Characterization of gold- and platinum group-bearing phases, sulphides, and diamond indicator minerals.
- Analysis of high-tech and industrial minerals, and mineral synthesis.
- Compositional analysis of natural and synthetic glasses.

- Solubility testing of natural and synthetic materials.

Lakehead University Wood Science Testing Laboratory (LUWSTL)

The LUWSTL offers state-of-the-art testing for the mechanical and physical properties of wood and wood products. We have three universal wood testing machines with all tools for mechanical tests for solid wood and engineered products as well as an impact testing machine. The lab can also do small scale hot press runs for composite research as well as large ovens for physical property research projects. A Bomb Calorimeter is in the lab to conduct thermal testing for several industries. We have equipment to conduct pellet testing or thermal, ash, durability, fines, bulk density etc. We have a Taber tester for flooring product wear studies. Wood identification is also conducted in the labs for various clients. The labs have fiber analysis equipment for measuring fiber length and width as well as vessel dimensions for hardwoods. We also have a conditioning chamber to prepare all samples and the labs can operate following ASTM or CSA or any standards required. The LUWSTL has a portable wood processing technologies program to aid communities in becoming involved in the value-added forest sector and to promote small scale manufacturing of value-added products. To this end the LUWSTL has a Wood Mizer LT40HD Portable Bandsaw mill and also a portable twin edger and a solar powered drying kiln. We have been conducting research and testing of engineered wood products in the Mass Timber area. In collaboration with other labs on campus we are also working on bio-products utilizing biomass and wood waste. This includes bio-fuels, bio-energy and also bio-chemicals. We also have the capacity to do full Fuel Specifications for boilers system designing.

Lakehead University Agricultural Research Station (LUARS)

LUARS, a facility with 36 acres well laid out plot ranges, at 5790 Little Norway Road off Hwy 61, has a strong and unique expertise in on-station and on-farm research, especially in the areas of crop, soil and nutrient management and has decades of experience behind it. LUARS could be an asset to the other LUCAS Labs and would welcome collaborative research with all. In addition to researchers, students and postdoctoral fellows, our clients could include industry (seed, fertilizer, pesticide, procurement and processing), other universities, and farmers' and government organizations.

LUARS has strengths in small plot research in the following fields:

- Screening of high yielding, better quality and disease resistant varieties.
- Evaluation of new fertilizers/blends of fertilizers and agro-chemical products including root inoculants, growth hormones and pesticides.
- Identifying potential new/and alternate crops and cropping systems for higher and sustained agricultural production suitable for NWO; leading to development of small-scale industries. For example, a stone grinding flour mill and a canola crushing plant for edible oil in the past.
- Developing new agronomic practices for improving productivity.
- Medium to long term testing for increasing soil and crop productivity and cutting down costs.

Paleo-DNA Laboratory (PDNA)

The PDNA Laboratory is one of the top ancient DNA research laboratories in the world. The laboratory is specifically designed to accommodate low-copy number, degraded, or ancient samples and vigorously control contamination. This laboratory provides academic support to faculty and students of Lakehead University as well as extension services to the public in the form of paternity testing, universal genetic identification, canine DNA testing, and ancient DNA analysis. The PDNA Laboratory was one of the first Canadian laboratories to develop mitochondrial DNA analysis techniques and DNA training courses emphasizing mitochondrial DNA analysis. The PDNA Laboratory, as part of its commitment, offers tours, presentations, and activities with the aim of improving the teaching and learning of science in the field of molecular biology.

Cancer Imaging and Therapeutics Laboratory (CITL)

The Cancer Imaging and Therapeutics Laboratory (CITL) offers comprehensive services to support multidisciplinary research aimed at discovering novel molecules for potential use in cancer imaging and therapy. These services include AI-assisted drug design, drug screening, organic synthesis, radiolabeling, and biological evaluation using protein-based and cell-based assays.
