

Calculus I

Math 1171 Fall 2023

Instructor Info

Dr. Sergio Zapata

szapata1@lakeheadu.ca

Office Location

External office unit #3 T3-C

Student Hours

Mon 3:30 pm - 4:30 pm

Tues 12:30 pm - 1:30 pm

Wed 3:30 pm - 4:30 pm

Thur 11:30 am - 12:30 pm

Course Info

Class Times

Mon & Wed 2:00 pm - 3:30 pm

Class Location

K325

Lab Info

Lab Time

Monday 5 pm - 6 pm

Location

K325

Welcome!

Welcome to Math 1171. As your instructor, I'm excited to have you in my class this semester and hope to get to know you well during our time together. For many of us, this class may at times feel like a struggle, but know that you are not alone and have a whole community that includes myself and your classmates as resources that can help support your success. Other resources on campus are discussed in more detail later in the syllabus. In our classroom, diversity and individual differences are respected, appreciated, and recognized as a source of strength. Students in this class are responsible for creating an environment where everyone feels welcome to speak up and participate during class and where carefully and respectfully listening to each other is the norm.

Material

Required Text

G. Strang and E. Herman, Calculus. Volume 1. Houston, TX: OpenStax College, 2016. This is a free, open-source textbook that you can access at <https://openstax.org/details/books/calculus-volume-1>.

Course Website

This course uses a D2L (Courselink) site, on which grades and important course information will be posted. It is advisable to regularly visit this website to keep yourself updated on any changes and to access any resources related to the course. (The website can be found at www.mycourselink.lakeheadu.ca.)

Student Hours

If you have any questions or concerns about the course, or if there's something you're curious about or thinking through, please feel free to stop by my office during Student Hours. Sometimes talking things out aloud can help us make progress. If you can't make it during Student Hours, please send me an email to schedule a meeting time that works for you.

Grading Scheme

15%	Quizzes
10%	Assignments
30%	Midterm Exams, 15% each
35%	Final Exam
10%	Best of Midterms and Final Exam

Quizzes

Weekly quizzes will take place at the beginning of each Lab. Note that there will be no make-up quizzes, but your lowest quiz mark will be dropped when calculating your final grade.

Assignments

Homework will be assigned every Monday via the online homework system WeB-Work. You will have until 5:00 pm ET on the next Monday to complete that week's assignment. Please note that late assignments will not be accepted, but your lowest assignment mark will be dropped when calculating your final grade.

Midterms

There will be two in-class Midterm Tests. These are scheduled for October 11th and November 13th. Test #1 will cover Weeks 1-5 and Test #2 will cover Weeks 6-9. There will be no make-up tests. If a midterm test is missed for a legitimate reason, the weight of the test will be added to the final exam.

Final Exam

The final exam will be a three-hour cumulative exam, which will be scheduled by the registrar during the final examination period.

Course Description

The introduction of the coordinate plane by Descartes established a bridge between geometry and algebra, drastically changing the way we viewed mathematics; this provided a framework for the development of calculus. Indeed, the coordinate plane allows us to realize real-world processes geometrically. For instance, if we let y be the price of a stock at a given time x , then we could plot the points (x, y) as x progresses in time, yielding a curve (a geometric object!) in the plane. One can study properties of this curve (with the help of algebra) such as its length, the area enclosed by the curve and the x -axis, the existence of tangent lines to the curve, its behaviour when x is very small or large, etc. Surprisingly enough, all of these properties have something meaningful to say in terms of the original problem. For instance, in our example, slopes of tangent lines to the curve tell us how fast the price of the stock is changing over time while the area reveals information about the average price of the stock.

The example above is just one of the many processes which can be modelled as curves in the coordinate plane. This course introduces a set of tools to study these curves. They are grouped into three main categories: limits (behaviour of the graph of a curve as x is getting close to a fixed real number a), differentiation (rate of change, tangent lines), and integration (area under a curve, averages).

Learning Objectives

Students who complete this course should be able to

- compute the limits of functions at a point or at infinity using methods of algebra, limit laws, and related concepts.
- define the notion of continuous function and determine if a given function is continuous using limits or other theorems.
- explain the role of limits in the definition of derivatives and integrals, and how the ideas of continuity, differentiation, and integration are related to one another.
- compute derivatives and integrals of various algebraic, trigonometric, exponential, and logarithmic functions.
- deduce properties of the graph of a function from its derivatives and apply these concepts to solve optimization problems.
- apply the idea of the definite integral to compute areas between curves.

Class Schedule

We will adhere to the following schedule of topics to the best of our abilities. It may be subject to minor changes due to unforeseen delays.

Week	Topics	Textbook Sections
Week 1 Sept. 5-8	Introduction and review	1.1, 1.2
Week 2 Sept. 11-15	Exponential, trigonometric, and inverse functions	1.3, 1.4, 1.5
Week 3 Sept. 18-22	Limits and Continuity	2.2, 2.3, 2.4
Week 4 Sept. 25-29	Limits at infinity and derivatives	4.6, 3.1, 3.2
Week 5 Oct. 2-6	Differentiation rules	3.3, 3.5, 3.7
Week 6 Oct. 9-13	None (due to Thanksgiving and Midterm 1)	
Week 7 Oct. 16-20	The chain rule, implicit differentiation, and derivatives of exponential and logarithmic functions	3.6, 3.8, 3.9
Week 8 Oct. 23-27	Study Week	
Week 9 Oct. 30-Nov. 3	Related rates, maximum and minimum values, relationship between derivatives and the shape of a function	4.1, 4.3, 4.5

Week 10 Nov. 6-10	Optimization problems and L'Hospital's rules	4.7, 4.8
Week 11 Nov. 13-17	Antiderivatives and sigma notation	4.10, 5.1
Week 12 Nov. 20-24	The definite integral, Fundamental Theorem of Calculus integration formulas	5.2, 5.3, 5.4
Week 13 Nov. 27 - Dec. 1	Substitution and Areas between curves	5.5, 5.6, 6.1

Course Policies

- Any email sent to the instructor must include a properly descriptive subject line that consists of the course number followed by a very brief phrase that summarizes the subject of your message.
- For privacy reasons, I will not respond to emails from non-lakeheadu.ca addresses.
- Response times may vary depending on the volume of emails received. It is your responsibility to ensure you raise your concerns in a timely manner.
- Course content created by a faculty member is considered the faculty member's intellectual property; it should not be distributed, shared in any public domain, or sold by a student or other third party without prior written consent of the faculty member.

Accommodations

Lakehead University is committed to achieving full accessibility for persons with disabilities. Part of this commitment includes arranging academic accommodations for students with disabilities to ensure they have an equitable opportunity to participate in all of their academic activities. If you think you may need accommodations, you are strongly encouraged to contact Student Accessibility Services (SAS) and register as soon as possible. For more information please visit: <http://studentaccessibility.lakeheadu.ca>

Lakehead-Georgian Policies

Academic and Student Code of Conduct Policies

- Academic and student policies and procedures for those enrolled in the Lakehead-Georgian programs can be found on the Lakehead-Georgian Student Portal.
- All Lakehead-Georgian programs will follow the Lakehead Regulations as list in the Lakehead University Academic Calendar (<http://csdc.lakeheadu.ca/Catalog/ViewCatalog.aspx?pageid=viewcatalog&loaduserredits=False>). The University Regulations include but are not limited to Registration, Examinations, Reappraisals and Academic Appeals, Special Examinations, Academic Misconduct, Withdrawal, and Timely Feedback. Additional Faculty Regulations may also apply. Please review the Academic Calendar at <https://csdc.lakeheadu.ca/Catalog/ViewCatalog.aspx>.
- The Lakehead University Student Code of Conduct - Academic Integrity will apply to all Lakehead-Georgian students regardless of campus of study (<https://www.lakeheadu.ca/students/student-life/student-conduct>).
- The Lakehead University Student Code of Conduct - Appeals will apply to all Lakehead-Georgian students regardless of campus of study (<https://www.lakeheadu.ca/students/student-life/student-conduct>).
- The Georgian College Student Code of Conduct will apply to the Lakehead-Georgian students studying at the Barrie campus (<http://www.georgiancollege.ca/student-code-of-conduct>). Additional campus policies of Sexual Violence Procedure and Protocol (<https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/sexual-violence>), Alcohol, Drugs and Tobacco (<https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/alcohol-drugs-and-tobacco>), and Information Technology Acceptable Use Procedure (<http://www.georgiancollege.ca/wp-content/uploads/2-117IT-acceptable-use.pdf>) also apply.
- The Lakehead University Student Code of Conduct – Non-Academic will apply to the Lakehead-Georgian students studying at the Orillia campus (<https://www.lakeheadu.ca/students/student-life/student-conduct>).

Plagiarism and academic dishonesty

A breach of Academic Integrity is a serious offence. The principle of Academic Integrity, particularly of doing one's own work, documenting properly (including use of quotation marks, appropriate paraphrasing and referencing/citation), collaborating appropriately, and avoiding misrepresentation, is a core principle in university study. Students should view the Student Code of Conduct -Academic Integrity (<https://www.lakeheadu.ca/students/student-life/student-conduct>) for a full description of academic offences, procedures when Academic Integrity breaches are suspected and sanctions for breaches of Academic Integrity.

Student Services and Support

Student Advisors - <https://georgiancollege.sharepoint.com/sites/student/Student-Services/StudentAdvisors/StudentPages/Home.aspx>

- Help students build both academic and personal resilience so that they can flourish at Georgian and beyond.
- Provide individual, group and web-based advising sessions.
- Are housed within the academic areas.
- To book an appointment with your advisor go to the Student Portal (preferred) or call 705-728-1968 Ext. 1307

Library - <http://library.georgiancollege.ca/main>

Customer Service

- Off campus access.

Research help

- Help finding books, articles and credible sources.
- Using specialty databases.
- Creating a search strategy.

Academic Success - <https://library.georgiancollege.ca/help/contact-academic-success>

Writing Centre - http://library.georgiancollege.ca/writing_centre

- Improve your writing.
- Help with citing sources and laying out your paper.

Math Centre - http://library.georgiancollege.ca/math_centre

- Make sense of math questions.
- Understand concepts and develop skills.

Tutors - <http://library.georgiancollege.ca/tutoring>

- Further understand course content.
- Build your study practices.

Accessibility Services - <https://www.georgiancollege.ca/student-life/student-services/accessibility-services>

If you are a student experiencing a disability who may require academic accommodations and have not yet registered with Accessibility Services, please contact their office at 705-722-1523, email studentsuccess@georgiancollege.ca, or visit their offices in B110. You must be registered with Accessibility Services to access academic accommodations. Support for those students whose success at college may be affected by a disability include:

- Ongoing support from our Accessibility Advisors including arranging a confidential psychoeducational assessment where required.
- Training in the use of specialized computer technology. Classroom and test accommodations.

Testing Services - <http://www.georgiancollege.ca/student-life/student-services/testing/>

- Accommodated testing.
- Missed/Makeup testing.
- Proctoring services are also available for external and Ontario Learn exams Counselling (<http://www.georgiancollege.ca/student-life/student-services/counselling/>).
- Free, confidential counselling is available to all students.
- Walk in counselling is available on a daily basis Monday to Friday.

Career Success - <http://www.georgiancollege.ca/student-life/student-services/co-op-and-career-services/>

- Career assessments and exploring options.

- Job search workshops.
- Labour market information.
- Resume/cover letter help.
- Interview practice.
- Graduate employment information.

Campus Safety and Security Syllabus Addendum

Emergency Evacuation - <https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/fire>

- Evacuate buildings when a fire alarm is activated or an official announcement is given. Review evacuation guidelines (<https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/fire>).
- Students requiring assistance in emergency situations must inform their faculty during the first week of class.
- Familiarize yourself with all fire exit doors of classrooms and buildings you may occupy.
- Do not re-enter a building until instructions are given by the Fire Department or college personnel.

Lockdown - <https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/lockdown>

- Lockdown is initiated when there is a potential or actual violent incident on campus that could result in a serious injury or threat to life.
- Students can download the new Safe@Georgian app to stay updated on Campus Safety and Security information including lockdown.
- Familiarize yourself with the College Lockdown procedure (<https://www.georgiancollege.ca/wp-content/uploads/Lockdown.pdf>)
- Lockdown tests occur each semester.

Resources

- Get Out, Hide, Fight Lockdown Video (<http://youtu.be/JA8cckMbVDk>).
- Lockdown quick reference sheet (http://www.georgiancollege.ca/wp-content/uploads/COM-15-416_LockdownProcedure_Signage_FVR3_print.pdf).
- Lockdown Model – Get Out, Hide, Fight: Lockdown Tools and Tactics and FAQs.

Unscheduled Campus Closure - <https://www.georgiancollege.ca/about-georgian/campus-safety-services/tab/campus-closures>

Resources

- How to find out if your campus is closed (<http://www.georgiancollege.ca/about-georgian/campus-safety-services/#how-to-find-out-if-your-campus-is-closed>)
- **Unscheduled Campus Closure Procedure** <https://www.georgiancollege.ca/wp-content/uploads/2-102Unscheduled-college-closure-2018.02.10.pdf>

Timing of Closures/Notification

Closure	Decision	Communication/ Notification	Notes
College has made the decision to close a campus or location in the morning	6:00 a.m.	By 6:30 a.m.	If re-opening for noon or evening classes is being considered, this will be mentioned in the message
College closed a campus(s) in the morning and expects to re-open by 12:00 noon	9:30 a.m.	By 10:00 a.m.	Only affects classes beginning at 12 noon or later
Closure expected to continue past 12:00 noon	9:30 a.m.	By 10:00 a.m.	
College intends to re-open for evening classes which commence at 5 p.m. or later	2:30 p.m.	By 3:00 p.m.	
College intends to NOT re-open for evening classes	2:30 p.m.	By 3:00 p.m.	

Notification will be made via:

- Georgian social media (Facebook, Twitter)
- Safe@Georgian app
- Georgian website (homepage)
- Recorded message when you call into Barrie campus at 705-728-1968
- Student or employee portal
- Georgian email account
- Radio and television announcements through local and regional media

Note. We only announce the names of campuses that are closed. If your campus is not named in a closure, it's open.
