Will this request impact student enrolment in another program within the same faculty/unit?:	An elective course, so enrolment will fluctuate based on student demand. We anticipate between 15 - 25 students.
Will this request impact student enrolment in another program in a different faculty/unit?:	Our program is a direct enrolment program, so only our students are allowed to register without permission. As such, it will not affect other units.
Will additional resources be required (space, staff, equipment, etc)?:	No new additional resources are required; the course requires teaching assistants, but these are already accounted for within our budget for the course.
How will this impact existing teaching loads within this faculty/unit?:	This is either part of a current faculty member's load and will not require new resources, or it may be taught by a sessional, but this too is already part of our budget. Additionally, elective courses will be rotated to account for our capacity to offer the courses and to ensure adequate enrolment.
What is the impact on the demand for teaching support services (library, computers, staff, etc)? :	There are no new services required that are not already supporting the course
Will this course require outside support? If yes, please outline the amount and timing of the funding:	We have no requirements of support from other academic units.
