Pedagogical rationale for this proposal. Why are you submitting this request?:	To add a four-year BASc option in the IS Major with Environment in Politics and Culture Concentration for students who are unable to meet the 70% HBASc average requirement for graduation after four years of study. Without this option, students who are completing the third year of their HBASc program with the Environment in Politics and Culture Concentration but who do not appear likely to meet the Honours average requirement might also choose to graduate with a three-year BASc degree instead of entering the fourth year of their studies. All of the relevant courses for the four-year BASc are already offered for the HBASc, so there will be no budgetary implications. The four-year BASc option is widely available in other program

	structures across the University, and this request extends that common flexibility to the HBASc IS Major with Environment in Politics and Culture Concentration.
