Academic Level:	Undergraduate
Is this a required course, or an elective?:	
What is the pedagogical rationale for this request? Why are you submitting this request?:	We deleted our second full year course on race and ethnic relations, and instead developed this full year course at the third year. This new course has a description that better fits modern sociological understandings of race and ethnicity, and is at a year level at which students will be better prepared to handle the more complex material in the course. This course makes sense as 1 FCE rather than breaking it into 2 HCEs since the theories introduced are cumulative, and breaking it up would negatively affect the logic of delivery. This also helps in that we have enough second year courses and require more

~~offerings at the 3rd year level~~ Changing title and description to better reflect the way the course is being taught, and to appeal to students interested in social justice themes. For example, is this change required for accreditation?
