Academic Level:	Undergraduate
Is this a required course, or an elective?:	Required
What is the pedagogical rationale for this request? Why are you submitting this request?:	This course is designed to contribute to the proposed concentration in Photographic Production, which requires 2 FCEs at 3rd or 4th year. Although this course is not a technical hands-on production course, unlike the other courses in the concentration, it is designed to provide context for further studies in photography or digital images and provide links with other Media Studies courses in the program. This course would be offered biennially on a rotating schedule with other third year Media Studies courses, so students will need to plan to take it whenever it is offered. It does not have a prerequisite so it should appeal to a wide audience. For example, is this change required for accreditation?

What is the pedagogical rationale for this request? Why are you submitting this request?:	~~Orillia Campus restructuring 10Feb2014 Senate. Course now belongs to Department of Interdisciplinary Studies, Faculty of Social Sciences and Humanities.~~This course is one of three third year production choices in the Photographic Production concentration, employing photographic techniques beyond the basic photographic medium. Students who have taken the prerequisite, MDST 2610, may opt to take this course. Those who have not taken the prerequisite can opt to take other production courses. Because the prerequisite , MDST 2610 is not included in the concentration, it seems best to identify these courses separately rather than as two parts of a a whole. The course description similarly tones down the reliance upon MDST 2610, although the prerequisite remains. For example, is this change required for accreditation?
