should be displayed?:	
Academic Level:	Undergraduate
Is this a required course, or an elective?:	• Elective
What is the pedagogical rationale for this request? Why are you submitting this request?:	We wish to expand the offerings of our health and illness stream to undergraduates. We do have a full second year course in health and illness, as well as offerings at the 3rd year (Women, Health and Medicine; Gender and Health), so this 4th year seminar course allows students to follow through with more topics related to the health field. Building on the expertise of our new faculty we hope that a robust set of offerings in Sociology of health and illness throughout the degree will appeal to students considering the Masters of Public Health Degree, medical school, and or other opportunities in the health care field. New "shorter" title For example, is this change required for accreditation?
Learning Outcomes:	Students will gain an in-depth knowledge of the sociological issues related to health care systems and delivery in Canada.
