Pedagogical rationale for	<del>1. An Introduction &amp; Rationale for the proposed Articulation</del>

this proposal. Why are you submitting this request?:

Agreement between Dawson College Community Recreation and Leadership Training Diploma to Honours Bachelor in Outdoor Recreation Degree Through consultations with faculty and administrators at Georgian College, Dawson College and Canadore College it was identified that Community Recreation and Leadership Training diplomas, or in the case of Dawson College the Community Recreation and Leadership Training diploma, provided a strong skills centred base of knowledge that matched well with HBOR learning outcomes for the purposes of assessing transfer credit and providing an efficient Honours Bachelor credential pathway through the HBOR program. Often students at the aforementioned institutions complete their co-ops and internships in nature based settings and, according to college program coordinators and academic advisors, a significant portion show interest in continuing their education with an outdoor focus. As the Recreation and Leisure industry is increasingly recognizing the importance of experiences in natural settings as a positive influence on the social, physical and economic health of modern urban communities, professionals with the practical and vocational skills learned in college settings combined with the critically reflective, research oriented, and theoretical skill sets developed in university are increasingly in demand. Originally the intent was to develop a multi-lateral agreement across all Community Recreation and Leadership Training Diplomas offered at Ontario Colleges. Due to large discrepancies between program content and curriculum between all Ontario institutions focus was placed on institutions with closely matching curriculum and an established interest in developing transfer pathways with Lakehead University including: 1 Georgian College - Based on MOU's signed between Lakehead University and Georgian College there is a strong push for developing transfer pathways to create efficiencies between our respective institutions. Our Learning Outcome Content Gap Analysis process identified that Georgian College has a strong Recreation and Leisure curriculum which matches well with the HBOR program 2 Dawson College - Dawson College (Quebec) has been advocating for an articulation agreement between their Community Recreation and Leadership Training diploma program and the HBOR consistently for the past two years. Their three year program has content which is very closely matched to the Ontario Community Recreation and Leadership Training programs assessed in this project. 3 Canadore College - Upon becoming aware of the HBOR pathways grant at an ONCAT event, the Dean of the Media, Arts, Recreation and Access at Canadore college sought out the project team and submitted all course documentation to pursue pathways for appropriate programs at Canadore. Based on our work with Georgian and Dawson college, we were able to efficiently assess Canadore's curriculum and determine appropriate transfer credit. After a learning outcome based curriculum assessment and multiple rounds of consultations the result is a single block transfer pathway that has been designed for all three colleges. To be clear, the HBOR curriculum, transfer mapping and transfer credits are the same for all three aforementioned college programs. Based on the success of these upcoming articulation agreements, there is the potential that this pathway can serve as a template for further work into the development of a multi-lateral agreement (across all Ontario colleges) when the articulation agreements expire

in 2022. For the purposes of this project, each College will have a separate articulation agreement that is associated with its own individual Major Modification Proposal to demonstrate rigour in development. Dawson College Diploma graduates entering this pathway will complete the HBOR degree within three years (15 FCEs). The pathway is outlined by semester in Figure 1 and can be compared to the complete four year HBOR degree outlined in Table 1 (found in Section 4 - Structure). Pathway students cannot enrol in any of our double degrees as they would not be able to meet the degree requirements of the partner degree within the three year program. To complete a double degree, block transfer students in this pathway would need to enrol into one of the existing four year degree programs. OUTD 3380 will be split into two half courses, one third year Winter Term and one fourth year Fall term. This reflects the work that is being conducted by the students at the appropriate times. The fourth year HBOR elective credit was moved to third year to maintain the total number of HBOR electives required within the program.

Pedagogical rationale for this proposal. Why are you submitting this request?:	<del>An Introduction &amp; Rationale for the proposed Articulation Agreement between Georgian College Tourism - Marketing and Product Development Diploma to Honours Bachelor in Outdoor Recreation Degree Through multiple consultations, focus groups and interviews with staff and students in Tourism Programs in Ontario (Confederation College, Sault College, Georgian College, Lakehead University's Thunder Bay campus) we have determined that there is an expressed need to develop efficient pathways for Tourism diploma graduates to access and complete Honours Bachelor degree programs. As the Tourism industry grows and evolves employers, communities and stakeholders require both the practical and vocational skills learned in college settings combined with the critically reflective, research oriented and theoretical skill sets developed in University</del>

~~priority, and therefore will be developed in University. Based on the slow shift towards increased credentialing in the Tourism industry, representatives of the aforementioned college tourism programs state there is a need to develop, demonstrate and market multiple educational pathways (i.e. university degrees that have accelerated pathways) and the associated employment opportunities as a component of both degree and diploma programs. Through consultations with Georgian College Tourism – Marketing and Product Development Program Coordinator Paul Burton and associated faculty, the mission for this articulation agreement centred on enhancing and building on the developing relationship between Georgian College and Lakehead University through the creation of block transfer pathways. Based on a review their current articulation agreements, the Georgian College Tourism diploma students do not currently have access to a transfer pathway into an Honours degree which specializes in nature based recreation, parks and tourism. This articulation agreement fulfills a unique niche. Page 2 Georgian College Diploma graduates entering this pathway will complete the HBOR degree within three years (15 FCEs). The pathway is outlined by semester in Figure 1 and can be compared to the complete four year HBOR degree outlined in Table 1 (found in Section 4 – Structure). Pathway students cannot enrol in any of our double degrees as they would not be able to meet the degree requirements of the partner degree within the three year program. To complete a double degree, block transfer students in this pathway would need to enrol into one of the existing four year degree programs. In addition, recognizing that an increasing number of Ontario post-secondary students are moving in both directions – from college to university and vice-versa, Georgian College program coordinators and Deans are currently in the process of reviewing the potential for an accelerated one year diploma in Tourism: Marketing and Product Development for graduates of the HBOR degree program. Currently the most suitable post-graduate certificate at Georgian College for HBOR graduates is a one year certificate in Therapeutic Recreation. OUTD 3380 will be split into two half courses, one third year Winter Term and one fourth year Fall term. This reflects the work that is being conducted by the students at the appropriate times. The fourth year HBOR elective credit was moved to third year to maintain the total number of HBOR electives required within the program.~~

Pedagogical rationale for this proposal. Why are you submitting this request?:	<del>1. An Introduction &amp; Rationale for the proposed Articulation Agreement between Confederation College Tourism - Travel and Eco-Adventure Diploma to Honours Bachelor in Outdoor Recreation Degree Through multiple consultations, focus groups and interviews with staff and students in Tourism Programs in Ontario (Georgian College, Sault College, Confederation College, Lakehead University's Thunder Bay campus) we have determined that there is an expressed need to develop efficient pathways for Tourism diploma graduates to access and complete</del>

As the Tourism industry grows and evolves employers, communities and stakeholders require both the practical and vocational skills learned in college settings combined with the critically reflective, research oriented, and theoretical skill sets developed in University. Based on the slow shift towards increased credentialing in the Tourism industry, representatives of the aforementioned college tourism programs state there is a need to develop, demonstrate and market multiple educational pathways (i.e. university degrees that have accelerated pathways) and the associated employment opportunities as a component of both degree and diploma programs. Based on consultations with Sault College Adventure Recreation and Parks Technician Program Coordinator Brian Anstess indicated that students graduating with Natural Resources based diplomas (ex. Forestry Technician Diploma) are increasingly drawn to Lakehead Universities block transfer pathway into Natural Resource Management and it would be desirable to have a similar pathway into the HBOR degree for students completing the Adventure Recreation and Parks Technician diploma. Brian Anstess currently advises that students apply to the HBOR degree program upon completing their Adventure Recreation and Parks Technician diploma, however in our initial communication regarding this project he identified that with the proliferation of multiple block transfer pathways into outdoor recreation and tourism based programs, many students choose alternate pathways where their college credit results in transfer credit and a shortened length of time to degree completion. Through multiple email and phone consultations, a detailed learning outcome gap analysis was completed between the Sault College Adventure Recreation and Parks Technician diploma and the HBOR degree program and informed by Sault College and Lakehead University faculty and staff to develop a block transfer pathway. Students entering this pathway will complete the HBOR degree within three years (15 FCEs). The pathway is outlined by semester in Figure 1 and can be compared to the complete four year HBOR degree outlined in Table 1 (found in Section 4 - Structure). Pedagogical rationale for this proposal. Why are you submitting this request?:	<p><del>The federal government recently replaced Aboriginal Affairs and Northern Development with Indigenous Services Canada and Crown-Indigenous Relations and Northern Affairs Canada, and the UN Declaration on the Rights of Indigenous Peoples (UNDRIP). It is also in-line with the Indigenous Learning Department, which is a department, like the school of ORPT, in the Faculty of Social Sciences and Humanities at Lakehead University</del>OUTD 3380 will be split into two half courses, one third year Winter Term and one fourth year Fall term. This reflects the work that is being conducted by the students at the appropriate times. The fourth year HBOR elective credit was moved to third year to maintain the total number of HBOR electives required within the program.</p>
