				This request is related to 2024-NAT-8748 that had been approved last year. We had provided the following comment 02/12/2025 to this program (See comment below). Not sure why this admission piece had not been approved at the same moment. My comments on 2024-NAT-8748 "This request from FNRM was considered at the FSES Faculty Council meeting in December. There were a number of concerns (mostly minor) that related to specific courses and/or equivalencies. Although originally my intent to bring this back to Faculty Council, given the importance of having this moved forward in the approvals	
Additional Dean-Science and Environmental Studies	Approved	Todd Randall	No	"This request from FNRM was considered at the FSES Faculty Council meeting in December. 	workflow, I have instead confirmed with each impacted unit (who had expressed concerns) and have worked with the initiator such that the revised Proposal Brief addresses all of the edits and concerns we had expressed at our Faculty Council. Thus, I have moved this forward. And an updated Proposal Brief has been uploaded."
