Re: Proposal for Certificate in Health Ethics

Dear Dr. Richard Maundrell,

This letter is to confirm our sociology department's enthusiastic support for the proposed certificate program in health ethics, open to all Lakehead University students. We can see that such a certificate would be very beneficial for students within our own health and aging focus in our undergraduate program.

We are also very happy to offer two courses toward the certificate from our roster of health courses in sociology. These include SOCI 3112 Sociology of Mental Disorder, as well as SOCI 4010 Critical Public Health. These courses are likely to run on an annual/semi-annual basis and we hope will be useful in contributing to the certificate program.

Thanks again for this very worthwhile initiative, and do be in touch as necessary for any future planning or adjustments as you roll things out.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Antony Puddephatt".
