11/03/2015	Antony Puddephatt	Hi guys, I can't figure out how to delete part of the request (courses). The system allows for a request to have both programs and courses, and the program changes are directly related to the course changes. Why can't we just keep it as is? I don't think its hard to understand what is being proposed here? Not trying to be rude here at all, but I am a little frustrated.... I was using the options the system provides to complete a request, and I was not given any direction otherwise. Lets just work with this okay? Otherwise, change the programming so that it is obvious they must submitted separately. thanks, Tony

Rationale The Sociology BA and HBA programs are well-established in Thunder Bay but to date there is no Sociology major in Orillia. Rather, there is only the possibility of a specialization in Sociology as part of a student's degree in Interdisciplinary Studies. This is a proposal, therefore, to begin offering the Sociology BA and HBA programs in Orillia as soon as possible. The Orillia Campus at Lakehead University is growing and evolving. Student enrolment is increasing, and Sociology remains one of the most popular programs. The 2013 Provost's Taskforce on Governance at Orillia has recommended that the present Department of Interdisciplinary Studies be divided into two departments, one containing the physical/natural sciences and the other containing the social sciences and humanities. Almost all of the disciplines at Orillia already have or will soon have a Major, and Sociology would undoubtedly lose out on resources, courses, enrolment, status and appeal if it did not also offer a Major. Offering the Sociology BA and HBA at the Orillia campus will provide students at both campuses with the capacity and opportunity to complete the same rigorous programs.
