11/03/2015	Antony Puddephatt	Hi guys, I can't figure out how to delete part of the request (courses). The system allows for a request to have both programs and courses, and the program changes are directly related to the course changes. Why can't we just keep it as is? I don't think its hard to understand what is being proposed here? Not trying to be rude here at all, but I am a little frustrated.... I was using the options the system provides to complete a request, and I was not given any direction otherwise. Lets just work with this okay? Otherwise, change the programming so that it is obvious they must submitted separately. thanks, Tony
