AT-A-GLANCE

# 2018

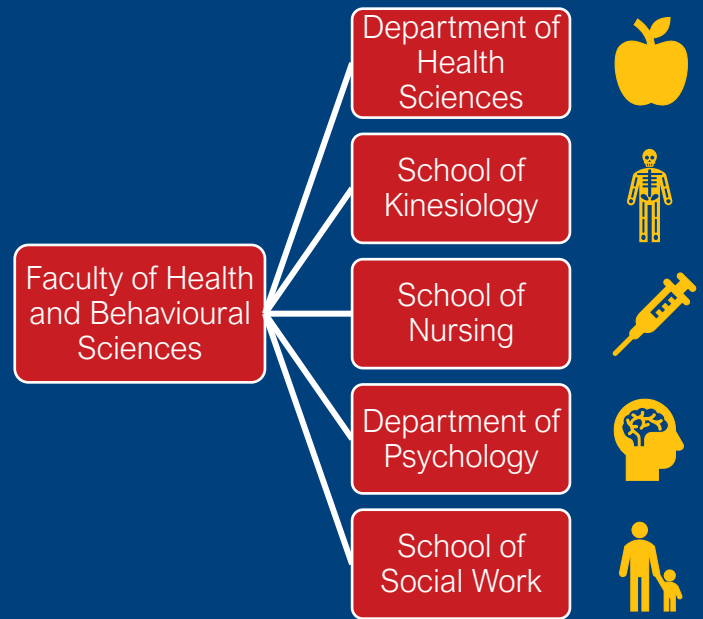

**Lakehead**  
UNIVERSITY

Faculty of  
**Health and  
Behavioural Sciences**

The Faculty of Health and Behavioural Sciences is comprised of several departments and schools, all of which share a dedication to human health and well-being. As such, our students have the opportunity to study multiple dimensions of health, a broad area of study and practice that is relevant to every single individual.

It is our goal to offer educational programming and inspire innovative research that will meet the ever changing demands of the Canadian health care sector, with special emphasis and sensitivity to rural, remote, indigenous and northern health issues.

- Women's Xchange
- Ministry of Transportation of Ontario

“ The Faculty of Health and Behavioural Sciences (FHBS) is a dynamic environment where students, staff, and faculty members can thrive and play a significant part towards better health and well-being for all. Whether it is through teaching and mentoring, research, or collaborating with our numerous community partners, members of FHBS seek to contribute in ways that will ultimately lead to tangible improvements in our communities. As evidenced in this activity report, our people are fully engaged towards this goal. In addition, our people also contribute economically to our communities by bringing in considerable amounts of external research funds. I hope you will enjoy reading this activity report – we certainly enjoyed compiling it - and I congratulate our people for their accomplishments. ”

## **Dr. Michel Bédard**

Dean of the Faculty of Health and Behavioural Sciences

Dr. Michel Bédard is the Dean of the Faculty of Health and Behavioural Sciences. He is a Professor in the Department of Health Sciences, a Professor with the Northern Ontario School of Medicine, and an Adjunct Professor in the Department of Psychology. He is also the Director of the Centre for Research on Safe Driving, and the Scientific Director, Centre for Applied Health Research, St. Joseph's Care Group.
