<b>Title</b> Introducing Ethnography	<b>Title</b> <del>Introducing Ethnography</del> Engaging Ethnology
<b>Description</b> Students are introduced to how anthropological fieldwork is conducted and will gain practical experience through class assignments. After being introduced to the ethical requirements of doing research with human subjects, students will learn through lectures and practice how to collect, code, analyze and present research data. The varied methods integral to ethnology and ethnography will be mastered through practical assignments. These skills will be applicable to other anthropology classes, including the honours thesis.	<b>Description</b> <del>Students are introduced to how anthropological fieldwork is conducted and will gain practical experience through class assignments. After being introduced to the ethical requirements of doing research with human subjects, students will learn through lectures and practice how to collect, code, analyze and present research data. The varied methods integral to ethnology and ethnography will be mastered through practical assignments. These skills will be applicable to other anthropology classes, including the honours thesis.</del> <i>Ethnography, as the hallmark method and product of sociocultural anthropology, combines the theories and practices of the discipline. This course will allow students to engage in selected ethnographies to explore topics such as culture, fieldwork, and the representations of the Other and the Self.</i>
