1.	New Course	Environmental Sustainability 4010 - Environmental Sustainability 4xxxHonors Seminar in Environmental Sustainability
----	------------	---

Justification

INTD 4033 is a required course for the Environmental Sustainability programs which is currently listed as part of the Dept. of Interdisciplinary studies calendar and is restricted to only Env Sus majors. Following the creation of the new department of Sustainability Sciences which houses the Env Sus Majors, we propose to move this course to the list of ENSU courses for operational and scheduling convenience. INTD 4010 also is a required course for the Environmental Sustainability programs which is currently listed as part of the Dept. of Interdisciplinary studies calendar. As it is clear from the course descriptions, INTD 4010 and 4033 go together as the capstone courses for the program even though they are calendared as half credit courses. This makes it necessary to have the general INTD 4010 replaced by a more specific ENSU 4010 (EN SU 4xxx) course for the Env Sus programs.

Course Details

Environmental Sustainability 4010 - Environmental Sustainability 4xxxHonors Seminar in Environmental Sustainability
Start Term: 2015-16
End Term: No Specified End Date

<u>Course Details</u>
Code Environmental Sustainability 4010
