Presents

DINOSAURS

AND

THE ORIGINS OF BIRDS

A Public Presentation by

Dr. Phil Currie

One of the world's most prominent paleontologists, Dr. Phil Currie, will present a talk entitled "Dinosaurs and the Origin of Birds". Dr. Currie is former Director of Research at the Royal Tyrrel Museum of Paleontology in Alberta and is Professor in Paleontology at the University of Alberta. Dr. Currie has received numerous awards for his research into dinosaur variation, dinosaur relationships, and dinosaurs and the origin of birds.
