

Hello Folks

Im Ron Hebert

Thankyou for coming to our graduation.
When I frist started humanities lol,
I was a little unsure about what I
would get out of it.

WELL! I was blowin away.

I found out that I could do the
homework assignments they had
been giving us without the selfdoubt
or I can't do this attitude.

Instead I went at the assignments
like an eager beaver, except I
didnt chew on the pencils,
but I did finish all the assignments.

I would like to thank all the
staff for there encouragement and
patience and friendship.

The Educators for their knowledge
and me about the world threw
there eyes. Wow!!!

I give a Super thankyou to all
the students who were in our class
of Humanities lol.

As I was listening to their stories,
and watching there interaction towards
one another, it made me very proud
to be part of the Class and
to know that there are so many

decent human beings, still out there.
Humanities 101 has opened possibilities
for me that I thought were impossible.
I am sure glad they proved me wrong.

I wish the best for all the students
of Humanities 101 and that they
realize as I did that there
is no limits to what each
and every one of my class mates
can accomplish.

They are all winners in
my book.

GOD BLESS YOU ALL.

Thank You

Proved me wrong.

I wish the best for all the
Students of Humanities lol

and that they realize as I did
that there is no limit to what
each and every one of my
class mates can do.

They are all winners
In my book.

GOD Bless You all.

Thank you.

Wford.
