

## Assignment 3 Water Resource Management

Choose one of the following:

<http://tvo.org/video/programs/the-agenda-with-steve-paikin/putting-faith-in-climate-science>

<http://www.cbc.ca/player/play/2681038441>

<http://www.cbc.ca/news/politics/flood-insurance-basement-disaster-compensation-goodale-feltmate-1.3941023>

Write about 200 words that summarizes your choice.

Compose a test question based on the material presented. Assume the question is designed for a 4th year university course about water management issues. The question should assume that students have similar background in water management as you do, have seen/listened to this link and have some knowledge of current water and climate issues.

Assignment 3 is due on March 1
