

Geography/ENST 3317
Fluvial Geomorphology
Fall Term, 2016

Instructor: Dr. Kamil Zaniewski
Office: RC-2006F
Tel.: 343-8472
e-mail: kzaniews@lakeheadu.ca

Lectures: Mondays, Wednesdays 1:00 – 2:30 in RB-3051

Course Description:

The objective of the course is to provide an introduction to the topic of fluvial geomorphology. The course will provide students with an overview of the fluvial systems and their dynamics. Students will become familiar with basic concepts such as flow regime, role of sediments, channel geometry and system response to change such as flood or flow obstructions. Material will be presented to students in lectures, with some field excursion to complement the classroom learning experience. Although there are no labs scheduled for the course, students may be expected to complete some take home assignments.

Course Objectives:

In order to successfully complete the course, students will be expected to demonstrate understanding of the following fluvial geomorphology concepts:

Fluvial Systems,
Flow Regimes
Sediment Sources
Channelized Flow
Fluvial Erosion
Fluvial Transportation
Fluvial Sedimentation
Channel Form
Systemic Response to Change

Textbook:

Charlton, R. 2008. Fundamentals of Fluvial Geomorphology. Routledge. 234 pp.

Course Grading:

Midterm Exam	40% (Oct. 31)
Final Exam	60%

Course Policies

The following course policies are consistent with those of the Geography Department and Lakehead University.

1. Regular attendance is expected in lectures.
2. Any absence due to illness, disability, or domestic affliction should be reported to the instructor. Absence due to extracurricular activities (e.g. athletics) should be discussed with the instructor **PRIOR** to the absence. If you miss a class, it is your responsibility to obtain the notes from a classmate. I can provide you with any handouts, but will not provide you a repeat of the lecture or my lecture notes.
3. Students with special needs should talk to me at the beginning of the course and register with the Student Success Centre.
4. Tardiness is frowned upon. Be late at your own risk.
5. Assigned readings, when provided, are to be read prior to the next lecture. This will allow you to get the most out of the lectures and ask informed questions.
6. Questions may be asked **anytime** during lectures. I won't be offended.
7. No make-up exams will be given without a medical excuse backed by a medical certificate. No one will be allowed to write the tests or the final exam **prior** to the scheduled date.
8. Assignments are to be handed in before the specified due date. Material submitted after the deadline will be accepted but will be penalized 10% per day.
9. Assignments will be graded for **content, legibility, structure, spelling and grammar**.
