

Assignment 3a

Study site and notes

Many plans have been in effect and then updated or replaced for Lake Superior and the Great Lakes. The latest is available at this site:

<http://www.ijc.org/en /ilsbc/Plan2012>

In my exploring I came across a draft for Chapter 5:

http://www.iugls.org/files/tinymce/uploaded/PeerReview_pdfs/IUGLS%20Final%20Report%20Chapter%205%20Feb%206.pdf

The draft for Chapter 5 may help in organizing your topic and presentation. It will supply pertinent information about the regulation of Lake Superior.

Choose one of the following sections and compose a 500-word summary which would be appropriate reading for an educated lay-person:

History of Regulation of Lake Superior

Coping Zones: Predicting the Impacts from Extreme Water Level Conditions
