

Water Resources Management

Schindler: Assignment #1:

1. The first step in your assignment is read the Forward on page xi by David Schindler in Bakker, K., Ed. (2007). Eau Canada: The Future of Canada's Water. Vancouver: UBC Press.

https://books.google.ca/books?id=aWOKNROK9XsC&pg=PA1&source=gbs_toc_r&cad=3#v=onepage&q&f=false

2. It is useful to read the Introduction chapter (pp. 1 to 20) in the text for some context for this Water Resource class.

A video of a public lecture by David Schindler (recorded on June 18, 2014) in Waterloo, Ontario is available on the Water Institute's YouTube channel. The lecture was titled *Canada's Freshwater in the 21st Century* and is about 61 minutes in duration.

[David Schindler Lecture Video](#)

3. View this video and write a review/summary (400 to 500 words) of this lecture. Pretend you are in the audience and need to submit an article for a local publication – The LU Argus for example. Supplement or support your report with occasional reference to the text selections noted above. The reading and video should give you a feel for some current water management priorities and concerns

Be prepared to discuss the video in class.

Questions? Ask in class or by email.

Due

January 18, absolute deadline on January 23.

Assignments 1 counts for 4 per cent of the term grade.
