by phone (and by chance)

## **GEOG 2811 WAO- Cultural Geography**

Winter 2023, 1:00-2:30 pm, OA 2014

### **Course Description**

This Geography course examines the spatial aspects of human interaction, culture and techniques. Topics and themes include key concepts in human geography and the spatial aspects of population and health, migration, culture and social media, race and ethnicity, politics, services, settlements and urban patterns. Course delivery involves a series of lectures, class exercises and readings on the cultural landscapes from a human geography perspective. Both traditional and contemporary geographic concepts and theories will be studied in the 'every day world' to understand various identities and cultural landscapes. The emphasis on the 'new cultural geography' will also be discussed as it relates to environmental sustainability, and to better understand current debates on such topics as race and cultural wars, gendered landscapes, culture and the environment.

### **Learning Objectives and Expected Outcomes**

- a) Introduction to human geography's basic concepts in thinking geographically and thematic areas from population to resource issues with emphasis on cultural geography;
- b) Better understand the geographic expression of culture in existing and emerging landscapes and the links between local and the global space and the geographic aspects of culture;
- c) Learn how the traditional and new conceptual bases of Cultural Geography relate to other areas of interest and academic disciplines especially anthropology, history, political science, sociology and other interdisciplinary concerns;
- c) Study and understand the relationship and role of culture in promoting environmental sustainability;
- d) Clearly appreciate the role of place, society and the environment in the evolution of landscapes, identities and inequalities.

## Resources and Notes

- The course is delivered in class, in-person @ OA2014
- The class will receive messages and announcements via e-mail & D2L.
- The class will have access to *mycourselink* via D2L for electronic class notes/materials and messages from the Instructor.

- Week 13:**    **Security and Environmental Sustainability**  
*Final Exam, online (D2L) Date to be announced (TBA)*

### **Policies and Expectations**

1. It is your responsibility to attend classes and participate in class exercises. Frequent absences will seriously affect your grades or performance. (Please contact your Instructor re: absence for medical and other valid reasons.)
2. Assignments should be submitted by due date and posted via D2L in *mycourse*link. Please note: no extensions allowed beyond due date, that is, no late assignments will be accepted.
3. Submissions on graded assignments must represent independent work. Highly similar (or identical) assignments will be graded at zero. An assignment may not be submitted for credit in more than one course without the written permission of all instructors involved.
4. Plagiarism is an extremely serious academic offense and carries penalties varying from failure in an assignment to expulsion from the university. Students are encouraged to review Section the University Regulations regarding academic dishonesty. All offenders will be reported to the Department Chair/Faculty Dean.
