All students who plan on doing an Honours thesis next year (2013-2014) need to have a topic and supervisor BEFORE the summer.

Please remember that you need a cumulative average of 70% or above in your Geology courses to be able to do an Honours thesis.

If you are in Water Resource Science the cumulative average is for your Biology, Geology and Geography all combined into one average.

Please fill out this form and return to Dr. Peter Hollings (Honours Coordinator).

Student's Name: _____ Date _____

Supervisor's Signature: _____ Date _____
