**II     Course Description**

The course introduces the scope, concepts, and methods of Political Science. Over the course of two semesters, we will examine the role of political ideas and the institutional and social framework of political activity in Canada and other political systems. The scope of the discipline will take us from political theories and ideas that cross borders to core political institutions that serve as the arena for political activity and exist within borders or across borders. Concepts are rooted in political theory and address ideas about power, equity and diversity, and the state or governance structure. One core concept, the political institution, is at the heart of political science and this course: institutions are designed to reflect a community's ideas and political theories, members work within institutions to create political change, and their rules shape members behaviour and the political and policy outcomes.

**III    Course Format**

The course is synchronous, in-person, and combines lectures and in-class group discussion activities.

**IV    Learning Outcomes**

1. **Critical Thinking:** By the end of this course, you will be able to identify and apply two of the five components of critical thinking, namely explain an issue, and assess and organize evidence. (The remaining three are covered in the winter semester.)
2. **Backgrounder:** By the end of this course, you will be able to produce a backgrounder that explains and synthesizes evidence on a contemporary topic.

3. **Research Basics:** By the end of this course, you will be able to demonstrate how to find, cite, and recognize reputable source.
4. **Institutions and Power:** By the end of the full year course, you will be able to explain the concepts of power and political institutions and illustrate their importance for political science.
5. **Field Survey:** By the end of this course, you will be able to describe the four main fields of political science and the main topics of study.
6. **Groupwork:** By the end of this course, you will be able to practice positive and constructive groupwork and initiate facilitating group discussion.
7. **Examination Writing:** By the end of this course, you will be able to assess and interpret multiple choice, short answer, and essay questions.

This course is designed to foster engagement and dialogue between learners and the course instructor in three ways:

1. Learners connect with the course instructor and each other through lecture, worksheets, and the activity bingo sheet.
2. The worksheets and Backgrounder submissions build off each other, providing learners/groups with constructive feedback for upcoming submissions.
3. Learners can critically review their work from each Backgrounder submission and the Reflection Assignment.

\*\*\* Remember, the course instructor is here to help! Please reach out through email, office hours, the Course Questions discussion forum, or schedule a meeting.

## **VII Course Evaluation in Detail**

### ***Participation – 10% of Final Grade – Ongoing (Weeks 1-12)***

Learners earn participation by attending class and engaging with the lectures, discussions, and activities. All classes will include time for completing the worksheets and peer feedback sessions. Questions on course material and assignments are also welcome during lecture and group activities.

### ***Syllabus Quiz – 1% of Final Grade – Due Friday, September 19, 2025 (Week 3)***

The Syllabus Quiz is a quick review of the course components and communication policies. The quiz must be completed to unlock the modules for Weeks 4 and up. Quizzes completed on time will receive 1% and all late submissions will result in a grade of 0.<sup>1</sup>

### ***Worksheets – 5% of Final Grade – Throughout the Semester***

There are ten worksheets and exercises over the course. We will take time in class to work on the worksheets and exercises. The worksheets and exercises address lecture material, critical thinking and other transferable skills, and build towards the summative project. The worksheet schedule is listed in the [Course Schedule](#) below. Learners are expected to complete each worksheet. However, if unable to attend a class, learners can still submit an attempt on Brightspace.

Learners are asked to submit the completed worksheet in class or post it to the related Brightspace discussion forum within 24 hours of the class in which the worksheet was completed.

The worksheets and exercises are assessed out of 1: not completed (0) and completed (1). The instructor will provide feedback as needed.

### ***Pop Quizzes – 10% of Final Grade – Throughout the Semester***

The pop quizzes are based on the reading material for the week. They may also have a question about the previous week's reading material if there was no pop quiz that week. The quizzes will be approximately 10-15 minutes and feature a mix of multiple choice and short answer questions. Learners are graded on their best 5 of 6 quizzes.

The quizzes are completed prior class:

---

<sup>1</sup> The last day to register in a course is September 16, 2025. All learners, regardless of registration date, will have until the end of the week to complete the Syllabus Quiz.

- Monday Class: To respect the weekend, pop quizzes open by 9:00am on Friday morning and are due by 5:00pm on Sunday.
  - Wednesday Class: Quizzes open after Monday's class and are due by 5:00pm on Tuesday.
- Quizzes are due prior to class so the instructor has time to review results in preparation for class. Results will help serve as a discussion point for our class; learners are encouraged to raise questions about the quiz in class.

***Activity Bingo Sheet – 15% of Final Grade – All Activities due by November 28, 2025***

The activity bingo sheet is designed to get learners trying things inside and outside of the classroom. Learners will have a choice of several activities and need to complete a row, column, or diagonal line on the bingo sheet. The activities include:

- Attend a research talk
- Visit office hours
- Meet a librarian (preferably the political science librarian, [Janice Mutz!](#))
- Attend a political science society event
- Facilitate groupwork discussion
- Contribute a point in class
- Present groupwork to class
- Ask a question during a research talk

These activities help learners work on their groupwork, oral communication, and research skills. Absorbing information, asking questions, and presenting material is an important part of doing research and communicating findings in an academic or professional setting.

Learners are asked to keep a journal of their activities over the course of the semester. The bingo sheet and journal entries are due on November 28, 2025 (Fall) and March 20, 2026 (Winter). Journal entries should briefly describe the activity/what happened and the learner's experience or thoughts on doing the activity. This might include whether the activity entailed trying something new or introduced a new perspective.

***Backgrounder Assignment – 35% of Final Grade – Ongoing throughout the Semester***

The backgrounder is a briefing document or presentation (deck) that explains a relevant, current issue or event, delves into its background or historical roots, connects it to a political organization, institution, or polity, and discusses the consequences that flow from the issue. Backgrounders can be prepared for an internal audience, such management or other teams, to prepare them for more detailed engagement on an issue. Or backgrounders can be external facing and meant to facilitate the public's understanding of a given topic.

The backgrounder is a group project. There are several scaffolded components that build up to the final project. Groups can decide whether they wish to submit the backgrounder as a formal written document or do a presentation deck with supplementary speaking notes. The component submissions are listed in the table on the next page.

All submissions will be graded use of course content, critical thinking skills (especially explanation and evidence), structure, and writing and grammar. As part of the evidence component of critical

thinking skills, it is important to properly cite all sources employed in a submission. It is recommended to submit single-spaced documents in Times New Roman, 12 point font.

<i>Backgrounder Component</i>	<i>Description</i>	<i>Suggested Length</i>	<i>Due Date</i>
Backgrounder Plan	Decide on the topic and final submission format (written document or presentation). Develop a groupwork plan for backgrounder – i.e., how to divide the content and requirements.		Friday, September 26, 2025
Issue Explainer	Provide a preliminary overview of the issue and its historical background. Can explain how it works.	1 page	Friday, October 10, 2025
Issue Data	A selection of relevant statistics, numbers, and/or graphs that present a picture of the issue. These should be current figures/numbers, but may also include historical data.	1-2 pages	Friday, October 24, 2025
Issue Impact	Why does the issue matter? Who or what organizations, groups or political units are impacted? Where and when does the impact happen?	1 page	Friday, October 31, 2025
Issue Consequences	What are the consequences of the issue and possible future developments?	1 page	Friday, November 7, 2025
Backgrounder	Background on a topic, why it matters to organization/political unit/institution, and potential future developments.	3-5 pages or 15-20 minute presentation + notes	Friday, March 28, 2025

### ***Reflection Assignment – 5% of Final Grade – December 1, 2025 (Week 13)***

The Reflection Assignment is due following the final Backgrounder submission. It is an informal journal entry for learners to reflect on their experience with their group and critically review their own work and thought processes/preconceptions. The suggested length is approximately 500-700 words.

NOTE: The Backgrounder must be completed before submitting the Reflection Assignment.

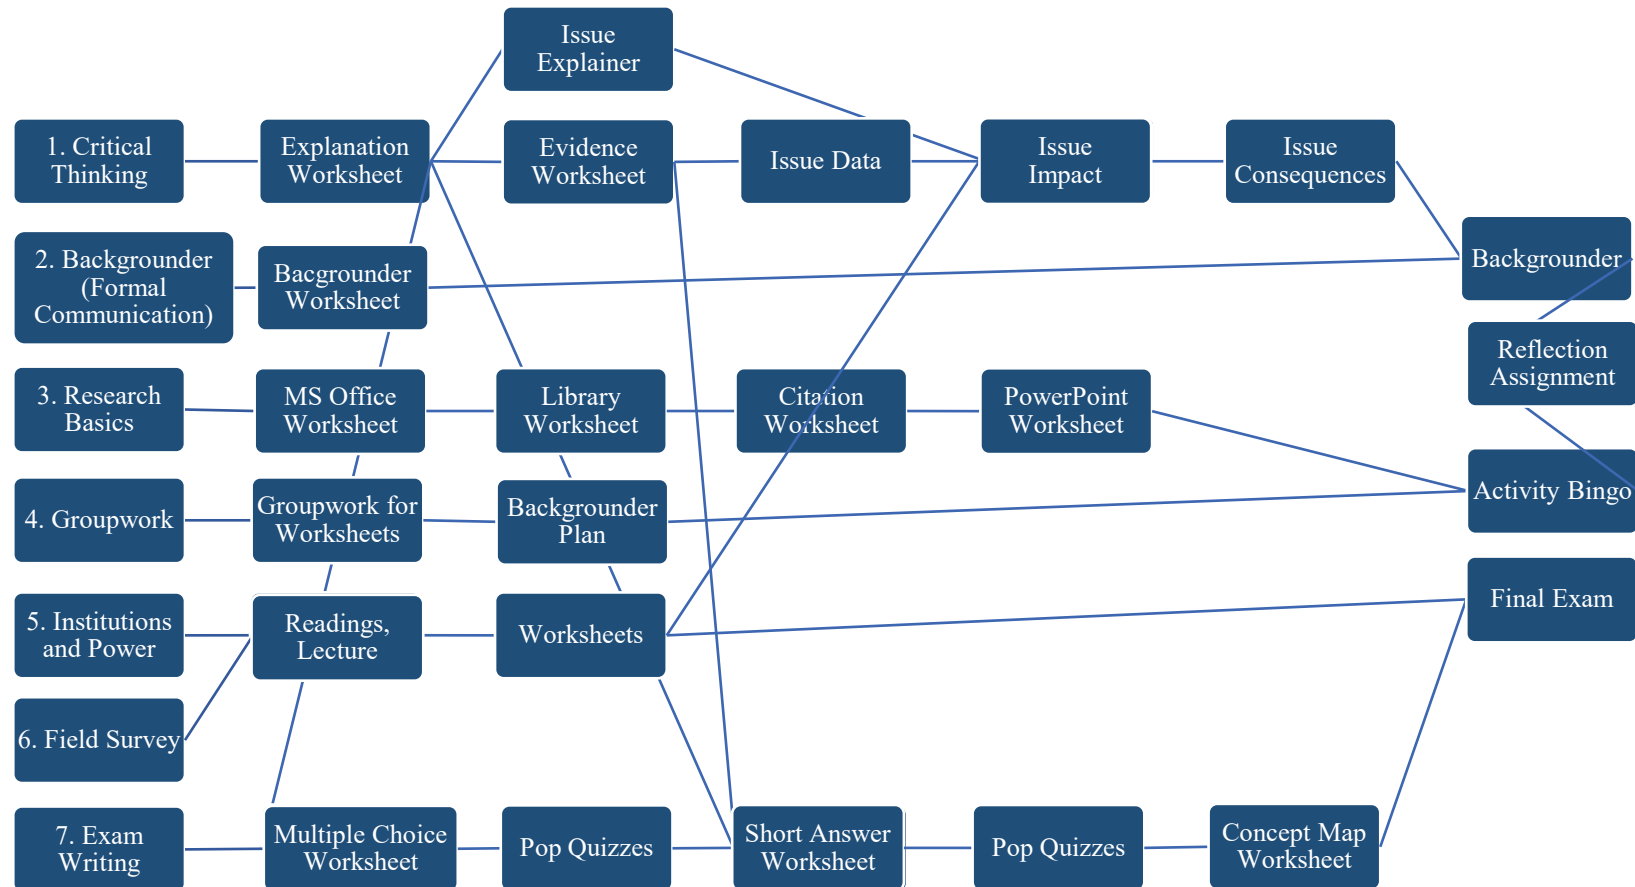

### ***Final Exam – 20% of Final Grade – Formal Exam Period (December 2025)***

The Final Exam is made up of a combination of multiple choice, short answer, and long answer questions. Details of the exam structure will be released closer to the exam date.

The short and long answers will be graded on use of course content and drawing connections between different weeks of the course. Students will not be graded based on spelling and grammar.

## VIII Learning Outcomes and Concept Assessments Map

This concept map lists the 7 course-level learning outcomes in the left column and the connected activities and assessments. The activities and assessments move from left to right in chronological order, based on working towards the learning outcome. The dates for all of the weekly topics and assessments (minus pop quizzes) are provided in the next section ([IX Course Schedule and Topics](#)).

## **X      Course Procedures and Policies**

### ***Assignment Submission***

- All assignments are due on Brightspace. Learners are responsible for ensuring that the correct file has been uploaded. Assignments should be uploaded as Microsoft Word documents (not PDFs) to the appropriate online dropbox by 11:59 p.m. on the due date.
- The recommended length for an assignment reflects both the expected effort of the learner and the time available to the course instructional team for providing feedback. Please respect the recommended length. Assignments over or under the expected length by 10% will receive a reduction in the assigned grade.
- Lakehead offers MS Office 365 (including Word, Excel, PowerPoint, OneNote, etc.) for free from the Technology Services Centre: [Office 365 | Lakehead University](#).

### ***Citation is Required!***

- Citing is important for a) giving credit where credit is due (intellectual property), b) justifying evidence, and c) avoiding plagiarism. Find more about academic integrity [here](#).
- Learners must use proper citation for all evidence and arguments derived from sources other than themselves. Citation is required for all sources beyond the course material.
- The preferred citation format is an in-text option such as MLA, Chicago Author-Date system, or the [Canadian Journal of Political Science](#) guide. Please avoid APA.

### ***Late Penalties and Extensions***

- Late papers will lose 3% per day, inclusive of weekends and holidays.
- Learners may find an extension necessary due to their specific circumstances. This is understandable, and identifying how to balance all the requirements of university life is a skill in and of itself. If an extension is needed, please email the professor and *recommend a new due date before* the deadline. The professor will accept all reasonable extension requests. Please note:
  - Extensions without a recommended new due date will not be granted.
  - Extensions requested or confirmed by the professor after the deadline will incur a minor penalty (including last minute emails after working hours).
  - Learners are asked to keep in mind that many of the assignments are linked and should consider how the extension will impact other work. An appropriate schedule can be worked out if necessary.

### ***Communication***

- Please make use of email, discussion forums, lectures, and office hours to get in touch.
- All email communication must be via official Lakehead University e-mail accounts.
- Email formatting basics:
  - Please use a formal greeting, such as ‘Hi,’ ‘Hello,’ or ‘Dear’ and *include the name of the person* to whom the email is addressed.
  - Use multiple paragraphs to breakout the content – doing so improves readability and highlights information!
  - Emails that look like a quickly typed text message may not get a response.

- There is no expectation of email responses for *anyone* in the course after regular business hours – both for learners and the instructor.
- Suggested communication options for questions/comments:
  - Lakehead University email for technical concerns, course procedures,
  - Lectures and office hours, or scheduled meetings for substantive questions,
  - Submit general questions to the Course Questions discussion forum,
  - Schedule a meeting with the instructor for personal questions and issues.

## **XI     Student Mental Health**

As a university student you may experience a range of mental health challenges that significantly impact your academic success and overall well-being. This can happen to any of us, and everyone can benefit from support when feeling overwhelmed or struggling to cope. If you or anyone you know needs help with difficult life events, anxiety, or depression, please reach out to Student Health and Wellness. The office offers free, confidential services to Lakehead students. You can find more information here: [Health Services | Lakehead University](#).

## **XII    Academic Accommodations**

You may need special arrangements to meet your academic obligations during the term. An accommodation could be needed for health, religious obligations, student activities pregnancy, or (dis)abilities. For an accommodation request, please contact me as soon as the need for accommodation is known to exist.

### ***Accommodation for Students with (Dis)Abilities***

Lakehead University is committed to achieving full accessibility for persons with disabilities. Part of this commitment includes arranging academic accommodations for students with disabilities and/or medical conditions to ensure they have an equitable opportunity to participate in all of their academic activities. If you are a student with a disability and think you may need accommodations, you are strongly encouraged to contact Student Accessibility Services (SAS) and register as early as possible. For more information, please visit Student Accessibility here: [Support for Students with Disabilities | Lakehead University](#)

## **XIII   Sexual Violence Policy**

As a community, Lakehead University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and is survivors are supported through academic accommodations as per Lakehead's Sexual and Gender-Based Violence Response Policy. For more information and/or support, visit: [Sexual Violence | Lakehead University](#)

## **XIV   Academic Integrity**

Academic integrity is an essential element of a productive and successful academic career. Lakehead's [Academic Integrity Code](#) addresses academic integrity violations, including

plagiarism, unauthorized collaboration, misrepresentation, impersonation, withholding of records, obstruction/interference, disruption of instruction or examinations, improper access to and/or dissemination of information, or violation of test and examination rules. It is a good idea to familiarize yourself with the university's academic integrity rules.

### ***Plagiarism***

The Academic Integrity Code defines plagiarism as “presenting, whether intentional or not, the ideas, expression of ideas or work of others as one’s own.” This includes reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include, but are not limited to, the following: books, articles, papers, websites, literary compositions and phrases, performance compositions, research findings, material on the internet and/or conversations.

Examples of plagiarism include, but are not limited to:

- Any submission prepared in whole or in part, by someone else;
- Using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- Using another’s data or research findings without appropriate acknowledgement; and
- Failing to acknowledge sources through the use of proper citations when using another’s work and/or failing to use quotations marks.

### ***Use of Artificial Intelligence***

Unless explicitly permitted by the instructor in a particular course, any use of generative artificial intelligence (AI) tools to produce assessed content (e.g., text, code, equations, image, summary, video, etc.) is considered a violation of academic integrity standards.

### ***Intellectual Property***

Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments, and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).
